EDITOR -- MARC B. LEVINE

AS editor for this years Iton, I would like to hand out a million thanks to a million people, for helping to make this years Camper Newspaper, truely, a campers newspaper. Everyone of the people I am about to mention put in countless hours and days of hard mental and physical devotion to this years final Iton. If I could show emotion on newspaper, I'd like to give everyone a big kiss. The only thing left to say about these people is that they are the greatest and I Love you all.....Thanks once again.

-----EDITORIAL '77-----

WHEW! WHEW is about the only way I can describe my feelings for this years final Iton, Iton '77. Whew, it is finally typed out and completed, and in the hands right now, of a camper, or staff member. Actually though, it is my job as editor, to sum up the summer. In one word and in my eyes, it was, successful. For me personally, and without the bulloney, it was just a fantastic learning experience. A learning experience for the first time in my life, that was fun.

Mostly everyone contributed something, in one way or another, to the successfulness of Kadimah '77. Also, I'd like to talk about a rumor I heard, that being, that Maritime people, whether they be 7 years old, or 70, are the nicest, most down to earth people. Well....it's true!

To pick a theme for this years iton, is a very difficult decision to make. I say this because it might be overshadowed by the fantastic Maccabia we had, or the phenomenal Shnaton that is being produced. So what I will do, is hope that next years Kadimah, is just as super, and has just as many positive vibrations, as Kadimah '77 had.

What else can i say, but Whew this editorial is finally over and thank everybody for allowing me to part of their special summer.

TAKE CARE AND STAY HEALTHY,

LOVE, MARC LEVINE

I dedicate this Iton, not to me (even though I deserve it), (just kidding).... but to the campers and staff who really made this Iton possible, for without them, you would only be getting articles from me, and thats a pretty sad Iton!

FOUR SUMMERS

Four summers
In a lifetime
Only fleeting seconds
But when lived fully
Generations of memories

Campers' tears and smiles
Imprinted on my mind's eye
All engaged in a symphony
Of emotions and activities
Knowing, furtive and wide-eyed glances
That accompany those away from home

Staff togetherness and less
Working hard
Giving and giving way
Premature parents
Struggling for control and independence
Satisfactions and frustrations competing
Responsibilities chasing fatigue

KADIMAH OBSESSIVELY JEWISH
city mainstream gentile
KADIMAH ACTIVELY ZIONISTS
city doesn't care or hates
KADIMAH CONSCIOUSLY SHABBESDIK
city too busy
KADIMAH JEWISH PRIDE AND DIGNITY
city self-conscious

A paradise adorned with
Trees of life and knowledge
A raisin and an almond

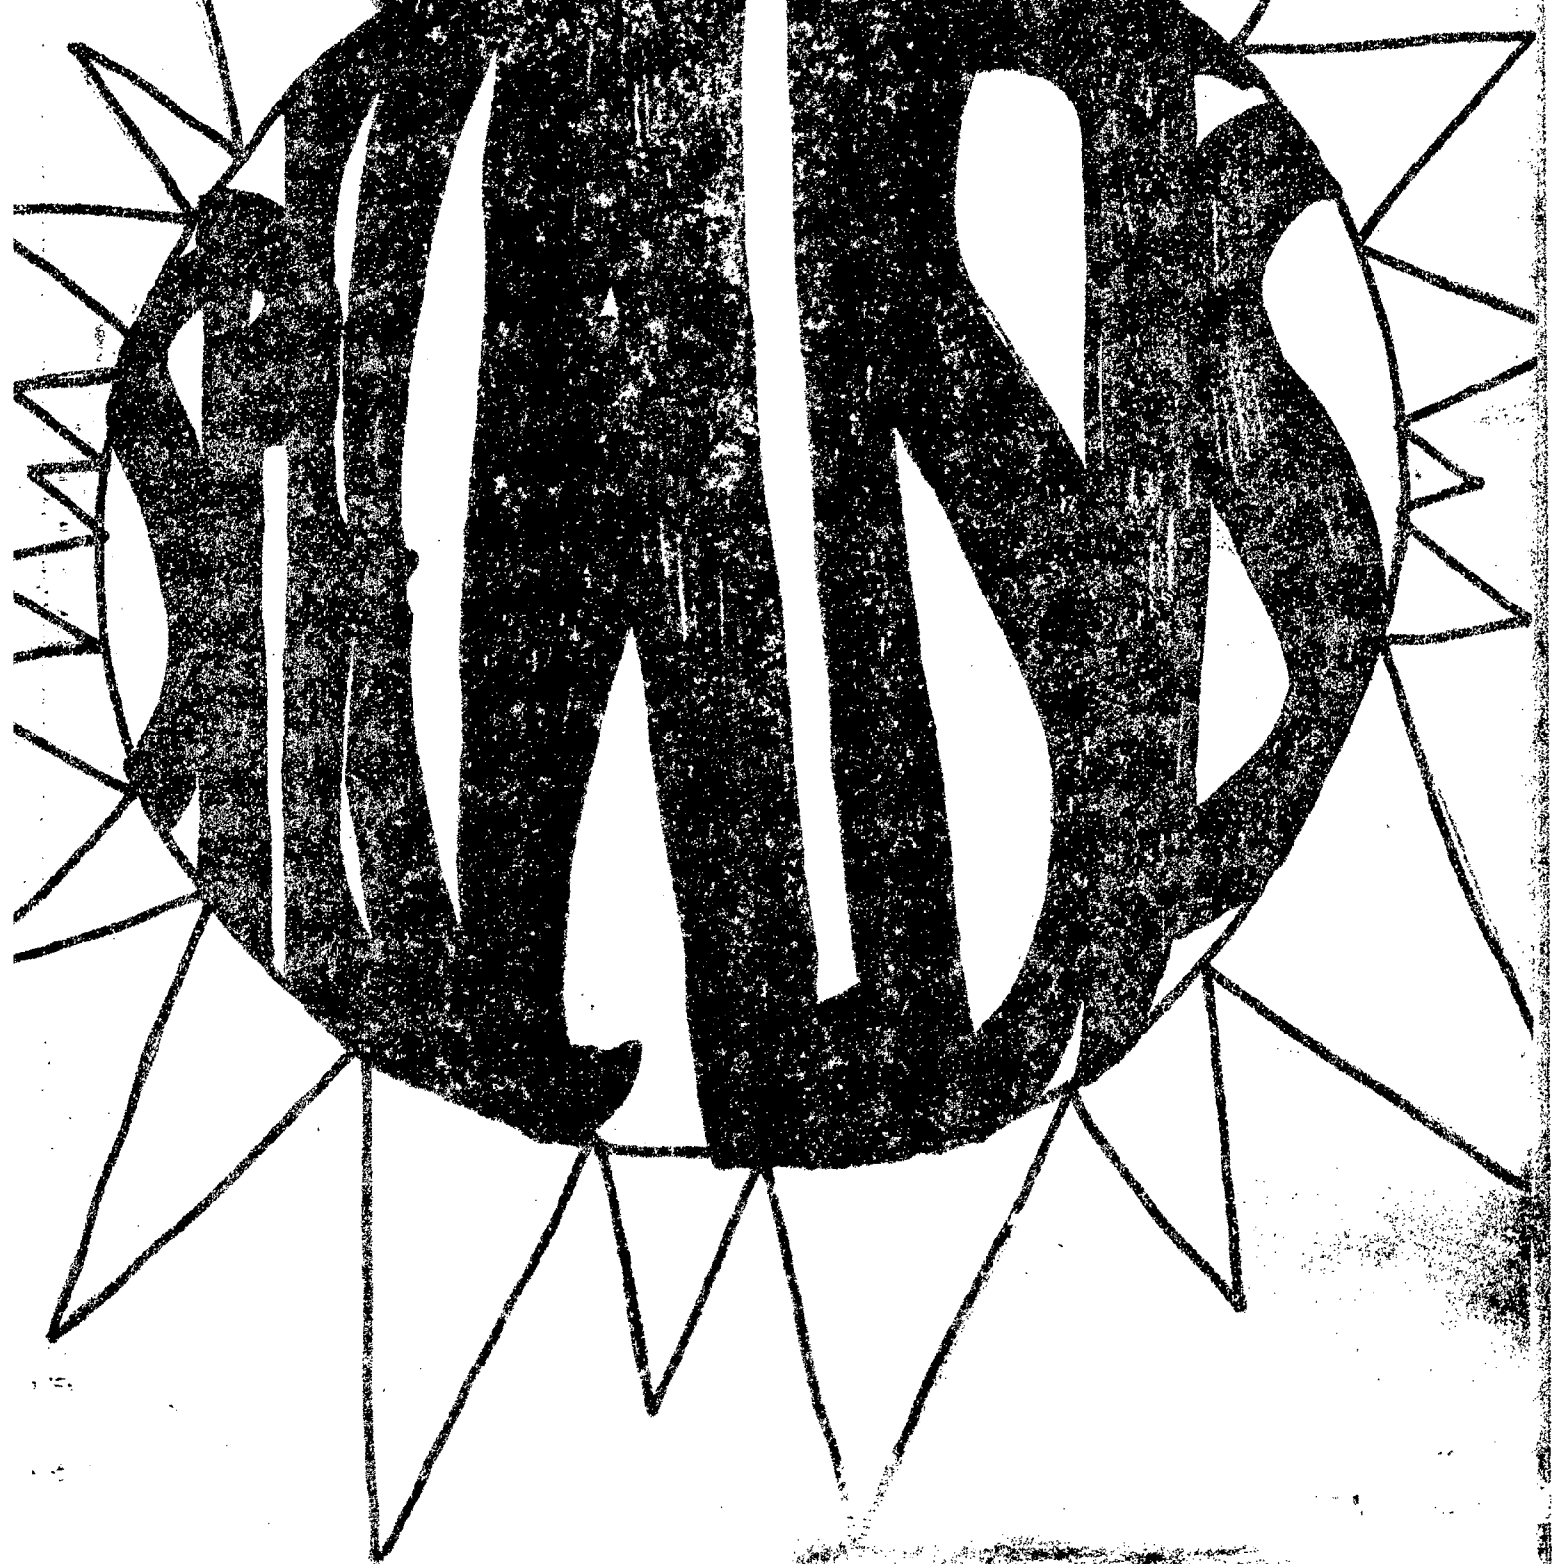

Four summers
In a lifetime
Only fleeting seconds
But when lived fully
Generations of memories

Shalom!

SPECIALISTS

LANDSPORTS (AS VIEWED FROM THE FEMALE EYE)

Before all campers arrived, I had many thoughts as to how they would view a female on the sports staff. Actually, I was quite nervous, although I felt I had significant knowledge of the sports I would be aiding or instructing. My main aim was to help everyone progress in their desired sporting activities, or just make sure everyone had fun, as often as possible, with the sports equipment that was available.

Once everyone arrived and began participating, my fears left. You gave me as much respect, as was given to Lee, Irwin and Ian (but then again, that isn't saying a lot, is it?) Just kidding. Seriously, we have had ups and downs in our peulot, but, many of them were ups that were a lot of fun. As far as the downs are concerned, we can all learn from our mistakes. I enjoyed having you, and I hope the feeling from your side is mutual.

I feel it an advantage of having a female sports staff member. Sometimes we females just add a little more patience and understanding with certain problems. That is not to say I never lost my patience. It is a human emotion and it happens to us all.

I cannot fail to mention the Giborim section's spirit at haftach. You had so much spirit (even at such an early morning hour) but when I had you for that first week, you made me want to jump out of bed and run to see you. Don't ever lose that ruach-spread it to all your friends!

Lee, Irwin and Ian-what can I say? You made my summer. I really felt a part of the sports staff. I cannot think of three more considerate guys to work along side with. Not once did I feel alienated. For this, I thank you, as I really was not sure how you would react to a female sports staff member. Working with you and getting along as we did did have an important contribution to making this one of my best summers.

To all sections and Camp Machar (I really think we have overcome some obstacles, Machar); I love you all!

Take care, and have a great year.

Love Bev

CKBC 920 Radio and Technical Report 1977

This summer Radio station CKBC-77 had a great summer on the air. CKBC was the camp's information centre. Every morning at 7:05 (no jive) you heard the voice of either Lorne, Mike and Shaul. CKBC was the one that got everyone to haftaka woke everyone up got you to breakfast etc. The music was really great mostly top 40 music. We even had professional D.J.'s. We had brand new equipment this year. CKBC ran on a assigned frequency of 100 watts new turntable and much more. CKBC looked after the socials every Saturday the socials were good this year. You would hear things like it's 8:08, don't be late; 9:09 as we rewind; 10:04 with much much more.

The technical problems developed here and there but not to much. If you read this article don't be shocked. Before I sign off the air

themselves into many new fields of endeavor. These fields are presented in a series of hobbies. Hobbies-to-do with the water are obviously led by the basic Kadimah waterfront staff. It has never truly been my life style to spend 25 successive afternoons repeating the same information to different to different groups of kids. At these times monotony would represent an improvement. The afternoon enjoyment capacity understood by a person is who is well versed in the rules of darts.

To summarise: If a person finds the morning dull and the afternoon uninteresting in his present employment, then it is obviously time for he or she to find a new line of work. My plans for next summer include starting a Shaul Landa fan club and sending hate mail to Idi Amin.

I hope that by reading this article you, the reader and critic, may find some sympathy for the life and existence of the overworked, underpaid water-front member.

Sincerely,
Howard Conter

Camp Kadimah

Camp Kadimah is a really great learning experience. After being here for seven years in a row, I feel that I know what I am talking about and that my opinion will be taken as the truth.

In my first few years here-at-camp I met people from all over the Atlantic Provinces. I also learned about things in the Jewish history that I had never even known about before. One experience I remember learning about was Tisha B'Av, which is the commemoration of the destruction of the temples.

I now compare my recent years to the old ones and I recognize the changes that have taken place in the camp. But all in all, this camp is a good place to come to to learn about people, Judaism and life. Also other things are offered like sports, swimming, song and dance. If you put everything together, this is a worthwhile camp.

Camp Kadimah
a home away from home
with friends that are your second family
Not quite a paradise
overflowing toilets
leaking cabins
sinking docks
But mainly a place with
feeling Jewish friends

GIBORIM

GIBORIM UNITHEAD REPORT

To the Giborim unit-

It seems to me that it was only a few days ago that I stood in the sports-field and, literally shaking in my adidas and watched as you all piled out of your buses and stood, waiting, ready to start a new summer.

From there on in it was just one long race to keep myself one step ahead of you all- you were a challenge from start to finish. It took alot of hard work for the staff and myself to keep feeding 27 hungry young minds new and interesting things for six weeks. I hope it was successful.

Your councellors and I "Kleibed nacher" from you all - from seeing some of you learn to swim to watching as Joey broke his own "non-stop talking record" he held from last summer. When you were good you were very, very, good---when you were badyou weren't that bad.

I will miss you all in the year to come - it was so nice to hear 27 little voices calling "hellos"wherever I went. Thank you all for making this such a good summer and for leaving me with so many beautiful memories to take home with me.

Love,

Garbo.

WHY I LIKE CAMP

I like camp, it's really nice.
But in the mornings, the cabins are like ice.
We clean our cabin, spic and span,
and put it all in a garbage can!

SWIM INSTRUCTION

The best time to go to swim instruction, is on a hot day.
This morning a friend and I, were watching a boy, do his 10 laps.
We looked in the water and saw a whole bunch of fish, turtles,
and other things.

BY: STEVEN ALLEN

SPORTS

WE played all kinds of sports and games, like hockey, soccer,
dodgeball, soccer baseball, and softball. We had a game of baseball,
they said it was a tie, but it was not. I got two homeruns, and
so did two other people. To the other team, it was also a fun game,
so when we finished, we had a game of Ga Ga.

BY: KEN CHERNIN

DEAR EDITORS,

I do not like clean-up. Instead of clean-up, we
should play, and camp would be more fun. I like Shaul and his
family and also the staff. I like our programmes very much.
I like my chugs, especially water-skiing.

BY: DANIEL FROMAN

Dear Leonid,

JULY 1977

Today we learn't about Soviet Jews and that is how
I got your address. Right now i am at Camp Kadimah for the
summer- a jewish camp in Canada, and we had a program on Soviet
Jews today. we know how hard it is for jews where you live and
we wanted you to know that we the people in Canada are behind
you. We were very sad to hear that in Russia you do not have
summer camps for the jewish children, because we feel very lucky
to be able to go to a jewish camp here.
My name is Debb and I would like it very much if you would write
me back. I am interested in learning more about you. My address
is: Debbi Olyan
Box 52
Vegreville, Alberta
Canada.

GIBORIM

Dear Soviet Sister,

July 1977

Waht can I say about something I've never experience, except that I never want to.

All I want to do in this letter is to let you know that people on the outside really do care.

One day I hope you will know the joy and pride that should go hand in hand with being a jew. Until then just realizing that somewhere in this world there really is that kind of tremendous feeling.

I am at a jewish summer camp right noe and I just came from a sing-song where jewish songs were sung freely and with tons of spirit.

I really wish that you could appreciate being jewish instead of havong to hide it. Believe me no matter how much you're told differently, you've got a heritage and culture that cannot be beat by any other.

Keep up the hope. I would love to meet you someday.

very fondly

Lind Smilestone.

CHUGIM

Chugim for Monday and Wednesday that I like.

Communications- Communications is really fun, July 27th a counsellor for this chug showed Neil Brown and I some things that are going to be television from a special T.V. camera. He also showed us Record breaking day.

Shuffleboard-Shuffleboards a winner, the concrete board looks like hopscotch, except they are a bit diiferent. There are two teams, black and red. Red goes 1st while black follows, ten is on the top, followed by 2-sevens. 2- eights. Suppose the game was up to 25 and one person on red had 14, black had 8, red got 10 so $14-10=4$ pts, if you get below the line near the second hopscotch like thing....you know what happens don't you????!! I hope so, if you don't know the answer then take another turn!

By..Ian Nathanson.

What is white and black with a cherry on top?

A POLICE CAR.

What is white and black and red all over?

A NEWSPAPER.

What is purple and goes knock, knock, knock?

How do you know if an elephant has been in your refrigerator?

YOU CAN SEE HIS FOOTPRINTS IN THE BUTTER.

PRECAMP

For Kadimah staff of 1977, camp began on June 29th. We arrived at camp and immediately began to get settled in for the coming season. The majority of the time was spent on programs, for the weeks ahead. In each staff member, new and old, there is a somewhat fearful nightmare about the camp season and how it will turn out.

The staff of the four sections in camp worked hard together and they worked hard as individuals. The staff had their ups and downs, as in any group. I feel the section which I had the privilege of being a part of, (Giborim 77) really stuck together with the fantastic programming efforts on behalf of our staff and our hard working section head (Greta) whom we all appreciate very much. Great was a helping hand when our spirits were low and a supporter when things were going well. The efforts in precamp were revealed in the program which were run very successively during the camp season.

Thanks Giborim

GOSHRIM UNIT HEAD REPORT

To The Goshrim:

As I sit myself down to write this message to you it seems unbelievable that the summer is at an end. When I think back so many different incidents come to mind. From the moment we all settled in I could feel the excitement that presided. Your spunkiness and energy seemed never ending, always providing an interesting challenge for all four staff. Together ~~we~~ went through high points and low points but, I can sincerely say that the high ~~was~~ exceeded the low. It is apparent that the Goshrim section really is a together unit.

From Morning rush to kisses good-night we worked together...

Goshies, your high spirits rose my spirits,

Through rain or shine

(Memories of our overnight)

Keep smiling,

Love Billee

GOSHRIM

Here at camp, we sing in joy
Every little girl and boy.
Our code is spirit and devotion between all man
Let there be peace on all the land.
May our spirits lift in song and praise
We,ve been strong throughout the days
Four great units working as one
Always smiling and having fun.
Our head staff and specialists work for us
Always helping and making a fuss.
Our own Giborim with there singing and staff
And then There,s Machar who make the camp laugh.
Kochot are the devil,s, Goshrim are the best.
And what the staff needs is a very long rest
We want the camp, huge in number
And thank you Kadimah for an excellent summer.

Heidi Brown

IN Goshrim we went cabin hopping
And at the water fight I was sopping
At our sleepover it started to rain
And most of the campers went insane
I an a camper of cabin 10
and we're not boys we're men
We Goshers go to bed at nine
This is the end because I don't know what would ryme.
Eric Altman

Camp this year was good I thought, being with Jewish kids is important practicing your religion is too. Camp programs are really good especially Goshrim's because we have the best section head, Billee Laskin. And the councellors help out too of course. I made it to Kadimah swim team which was a miracle. I don't know how but I just did. Machar day was fun too. The programs were very good, ACP was too. Head staff and speacialists were good too Bev Bernick was out sport helper she was very nice and helpful too. I liked camp.

Robyn Cohen

Toranut is not so great
But really I did I did I ate
I set the tables and cleared them too
But really I want to go to the zoo
I sweep under the tables
Which is not a fable
It's not so fun
But camp is a lot of fun.

Mara Brown

GOSHRIM CON'T

It was 6:30 in the morning and I had to use the bathroom so I got up and the first person I saw was Hughie Smilestone. And he said hello. Then I said all right I got you for Machar day. Then we talked for a while. Then they called haftaaah. When Haftaaah started I knew it was going to be a great Machar day and it sure was a good one. It was so good it was the greatest Machar day I ever had.

Neil Brown

The Animals go wild over pretty girls. Every one of us has a girl friend. I would put the Goshrim couples down but nobody in our group wants me to. The animals have great companionship. They work together as a team. Once every year we have a muscle exhibit. The animals favorite song except for their own is Madu A Cohensky A Nachnu Eparon. The Animals our famous for their cabin hopping.

Iaan Brown

I am sorry to say that the world is going to end at 9:00 ---9:30 in Newfoundland. These jokes are so funny and old, the last time I heard them jokes I fell off my pet dinasaur.

Evan Zelikovitz

HOLOCAUST

The Nazis, mean, terrible, crazy people. Hitler, their leader, a man with a notion of destroying a whole nation. Why, we ask do people do such horrible things such as that? Six million of our people, The Jewish people are dead and gone. Why didn,t anyone come to our aid? We needed help! I know why Hilter was a sick man. Did Hilter have a reason to demolish the Jewish nation? No! He wanted to kill, because Jews were low class, ugly, inhumanpeople, he said and thought. And still six million of our Jewish people were killed. Why? We ask Why?

CABIN 10 BUNK REPORT

The lights went out, the show began.
The stage was set in cabin 10.
Animals came from far and near.

What we had in Cabin 10 this year was unique to Camp Kadimah.
Never before has anyone witnessed such closeness between staff and animals.

A little about the staff, terrific, fun, goodlooking, hunks, athletic, intelligent, witty, flexible, adaptable, modest, sensitive, capable, etc.

A little about the kids, yes they were here this summer, were they ever here.

Love,

KOCHOT UNIT REPORT

Believe it or not, there is a method to my madness. Behind spontaneous programs devised as comebacks when hikes were rained out, and behind the two hours of "hard rock" labour, I held great plans for Kochot.

I honestly wanted to create a warm unit feeling and to provide for you a summer long learning experience - you can decide for yourselves whether you think these wishes came true.

For me, the summer was a mixture of success and failure. I can remember many a day when I would see you all happy and enjoying something, as well as those when you sour-graped about this or that. The overnight at Indian Falls was a high point for me, as was the day at the Ovens, and "the night of the human chain" when you chose to, you sure knew how to have a good time.

I would also like to tell you that you were lucky indeed to have the counsellors you had, - in my opinion, some of the best counsellors in camp. They liked you, and admit it or not, you liked them.

I hope each and every one of you return to Kadimah/Machar next summer for more fun times, and I wish you all the best in the world.

Love,

Pam Medjuck

RECORD BREAKING DAY

Record breaking day is a special event day, where of course, records are broken.

- 1) Cookie eating contest, won by Andrea Chernin and Martin Zel--- 127½ cookies.
- 2) Talking contest, won by Joey Swartz--- 3 hours non stop.
- 3) Standing on one foot, won by Arlene Conter--- 2 hours.
- 4) Shot Put, won by Mark Simon.
- 5) Bubble Gum Blowing Contest, won by Esther Tock and Neil Brown--- 7 inches.
- 6) Apple bobbing, won by Melanie Glick--- ½ second.
- 7) Ice hold, won by Jason B. and Marla Jacobson--- 40 minutes.
- 8) Gunneling, won by Ben Schelew.

....these are just a few of the exciting events.

Our Experiences in Cabin Hopping

One night we had the urge to cause a little trouble. So we tried our luck on cabin hopping to cabin 33. We made it and stayed on the porch talking and watching the staff walk by. Once in a while we got caught, but most of the time we didn't, because the staff couldn't be bothered to go after us every night.

For example, one night before David D. was leaving, we hid behind a tree and some staff saw us, but for certain reasons, one of them let us hop over, as long as we left after 5 minutes. We got in so much trouble, that it would take another page to explain, but it was only minor trouble.

Some nights, the whole unin would be hopping around, but usually, Lisa and I were the only two. We really enjoyed it, so we can't say much more, or we'll give away our secrets. We can remember the good old nights and laugh. All we can say for next years unit, is good luck and don't get caught.

HOWARD CONTER

Before I start writing this article, I want to explain to you Howards personality. Howard Conter means fun. Howard is 17, although you could never tell, by the way he acts. Howard is nice. Howard is a great guy. I'm not kidding.

When Howard teaches a class, he combines good fun with learning, which equals a great swim class. I'm truly amazed that a few people do not particularly like him, because to me he is one heck of a great guy. Dip, as he is known to me, is known for doing slightly weird things, such as swamping canoes that don't float and wearing fake glasses that make him look dozier than he is. It's Howard's encouragement that makes me try in swim class, and Dip is willing to put himself out for the sake of others. Dip also teaches canoeing and again his skills as an instructor stand out. Here's a poem I wrote for Howard:

Roses are blue,
Violets are red,
You're a real nice guy,
But you're out of your head.

THE OVENS PARK.

This year the Kochot section was going to go on a 3 day Hityashvut, but the weather stopped us from going right away, so we had an alternative, and that was going to the Ovens Park. The next morning at Mifkad we were told about the idea and then we left on a bus at 9:30 and got there around 11:00. When we got there we went for a tour around the park. Then we went back to our meeting place and ate lunch. After lunch we just talked and went to the small store, some of us went swimming until about 2:00. At 2:30 we left and we got back to camp at around 4:00. Although we didn't go on a Hityashvut, we are still having a great summer.

By Rachel Sadofsky.

THE HITYASHVUT THAT WASN'T

Sunday night, just after Tisha B'av was over the Kochot section was called together on the pavilion for a short meeting. All 13 of us sat on the pavilion wondering what was going on. About three minutes later we heard the voice of Victor Fineberg, who is the head of camping and hiking this year. He announced that we were going on a Hityashvut which was to leave after Hafta'a the next day. We hurried over to Machar to get all the things we needed. All our things were then packed and taken by van to the site. The next day when we were all ready to leave they told us that we could not go because the weather was supposed to be really crummy. They kept trying to find a good time to go but it just turned out to be the Hityashvut that wasn't.

Confessions of a Kadimah Camper

I've raided 16 cabins,
Put shaving cream on every bed,
Broke all the pipes in the guy's showerhouse
And told the counsellors to drop dead.

I've broken twenty cabin windows,
With rocks that I have thrown,
I've scattered food in every place,
Where creeping fungus has grown.

I've broken into the fridge
And eaten all of Mama's delights,
I've faced the flu and a broken toe,
And I go cabin hopping every night.

I've skipped off peula,
And missed many chugim too,
I've strangled fellow campers,
When there was nothing better to do.

I've never changed my clothes or sheets,
My friends say that I stink,
I've started all the water fights,
And clogged up every sink.

I'm confessing to all my sins,
And I must be honest with you all,
Although I am not famous,
I am more frequently known as.....

"Your Average Kochot Camper"

The Gas Passing Chug

In a normal day in Camp Kadimah a guy like most guys lets off a gas-pass. After reviewing this Marc Leviene decided to start a gas-passing chug which lasts one hour where you go and eat beans and gas-pass. Some members are officially:

President - Marc Leviene
Vice - President - Mark Simon
Asst. Vice - President - Ronnie Cupperfain

Kadimah...through the eyes of a Torontonion
As far as junior camps go,
I thought camp Shalom, was just so,so

Since age 7, right through to 13
I was a happy camper as you might have been.

Solelim & Biluim is where I spent the next 4 years
After 11 years of camping, I simply ran out of fears

Now you know my camping story,
all the fun it gave me and all the glory.

But alas, in the summer of '77
a friend told me about a camp in heaven

Camp Kadimah, of course, was its name,
Next day, I was "leaving on a jet plane"

Three days later, we entered the sacred site,
The first look around of it, did give me a fright

When the kids came, and the camp settled down
I knew that I did not want to be Homeward Bound.

Special, is the word to describe the chanachim
when they're around me, I just beam

Really though, the campers are just great
spending a summer with them, I do appreciate.

I could compliment this camp, day after day,
I love it, thats all there is to say.

Love Marc Levine.

I think Camp Kadimah is a real booster for the Atlantic Region. It provides Jewish kids all over the Atlantic Region from their little communities, to come and spend six weeks of their summer in total Jewish surroundings. While here, they meet many people who can be friends forever.

We have ACP programming which concerns different things in Judaism. Some of our evening programs do also. On Friday night we have Shabbat services and on Saturdays also. But camp isn't only to do religious things, it's to have a good time. In the morning we have activities like drama, swim instruction, arts and crafts, and many others. After lunch we have choice activities. In these are included horse-back riding, water-skiing, sailing, baseball, and many, many others.

We also have special event days at camp, such as Record-breaking day, and Maccabia which lasts for five days. It's like a colour War. Although I have been here for three years, there is always many new things. For us, camp is something to look forward to.

----- Dena Dankner

Dear Pammy and Staff,

I've really had a good summer, and thanks to you, I have great memories to look back on. I would really like to thank all the staff of the whole camp because they did a fantastic job.

Have a good year and hopefully I will see you next year.

Love,

Ruth Fromen

CAMP KADIMAH- THE RELIGIOUS ASPECT.

I found Camp Kadimah to be a fantastic Jewish experience that should be experienced by all Jewish youngsters from the ages of 7 to 15 yrs old. Many Jewish traditions are practiced in camp and prove to be very educational, and I enjoyed them very much. I feel the reason that I enjoyed them is because in camp the religious programs are carefully planned to be interesting to the campers.

MACHAR DAY

There are two days during camp that the oldest section, Machar takes the responsibility of being counselor for the day.

We start the day at 7:00 A.M., wake up. The macharniks plan Morning exercises called Haftaah, after that we come back to the cabin and clean up. Later on in the day the macharniks plan an "ACTIVITY CENTERED PROGRAM", which has to do with Judaism. After lunch we have an afternoon program which is fun and enjoyable. The last thing that is planned for us is an educational yet active evening program that lasts until curfew. The fun begins when the Macharniks leave our cabins thinking what great kids we are, asleep so early. What they don't know is that we have our own night activities planned. First comes a party with all the food that the campers have gotten from various sources (care packages). When the supplies run out we resort to cabin hopping.

The method is not fool-proof. There are counselors patrolling the camp. These people are called shmira. When you are in the boys cabin and you hear a noise there are two things you can do.... hide under a bed or run for your life. Not that it matters you are usually caught both ways. By the time 1:00 rolls around you usually fall asleep.

All the counselors know (think) is what fantastic kids we are!

HOW TO GET OUT OF INSTRUCTIONAL SWIM.

There are many ways to get out of instructional swim. Here's my list:

- 1) Put the thermometer in boiling water when the nurse leaves.
- 2) Eat Garlic and say you've been throwing up, and should therefore remain indoors.
- 3) Say that you are willing to help sick people around you, even though you will be missing swim instruction.
- 4) Say that if she doesn't write you a note soon there will be a mess all over the floor: and leave quickly.

THE TEN COMMANDMENTS OF KOCHOT.

- 1) Thou shalt cabin hop every night.
- 2) Thou shalt not tell the truth, the false truth, and everything but the truth so help yourself.
- 3) Observe the ten commandments of kochot Kadimah.
- 4) Thou shalt not go to Shabbat services.
- 5) Thou shalt skip peulat everyday.
- 6) Thou shalt steal food from other cabins.
- 7) Thou shalt raid every night.
- 8) Thou shalt ignore what the counsellors say.
- 9) Ye shall sneak up to the general store anytime you want.
- 10) Thou shalt always be a good kochotnik!

THE MALE STAFF OF KOCHOT

We, the male staff of Kochot respectively known as Ray Zatzman, Marc Levine, Ronnie Cuperfain, Ken Gordon, RICKY Wolfson and Alan Scher would like to make a few comments about the summer of 77.

First of all we would like to thank our wonderful campers for their commendable behavior during these past six weeks. Our campers are all such nice kids. We wish we could take them home with us! Our feeling for each one of them has grown tremendously over the summer. Our final moment together will be a sorrowful one.

We wish that the summer of 77 would never end, but every good thing must come to an end sometime and so we bid farewell to our beloved counsellors.

REFLECTIONS ON THE MACHAR EXPERIENCE

"Everybody's talking about this chevra we're feeling..."
Simply a song, simple words, simply a summer that feels like a lifetime making. Those words a reality. Inside the bubble world of camp one finds Macharniks whose lives in the city quite naturally revolve around viewing the world only through a personal perspective. Slowly a sense of community evolves and we learn to make personal sacrifices for the benefit of us all. We begin to grow not only as individuals but also as a community.

An integral part of that community effort is learning how to be Madrichim. Machar, as its name indicates is striving to develop the leaders of tomorrow, leaders within the Jewish community as well as leaders of mankind. The word Madrich is translated to be "a guide", not someone who necessarily has all the answers or does everything for the camper, but rather someone who is capable and willing to be a guide in helping others to realize their own potentials and do things by themselves.

Machar also contributes to the process of transmitting our Jewish heritage to the new generations that pass through our gates. It is sad that often this is their first encounter with our vibrant Jewish culture. Camp is not school and we do not want our educational process to be the memorizations of names and dates. Through diversified methodologies of an activity-centered nature we hope to offer a taste of what our Jewish heritage is all about. Our goal is not to replace a Jewish education but rather to establish positive feelings towards Judaism so Macharniks will pursue it on their own and not shun it when it appears.

Self awareness, development of a sense of identity, discovering strengths and working out weaknesses are all a part of the barrage of self growth that permeates every element of our daily lives at Machar. As a result of our self-revelations we are better able to recognize the specialness that every other person has.

The beauty of Machar is that everything I've mentioned is just a beginning. The learning process starts here but it continues on tomorrow, and tomorrow and onwards for the rest of our lives.

As for myself this ends a four year life with Machar. Each summer has been a new universe of experiences as each Macharnik is different and special and as I have changed and learnt over the years. I hope I've helped some of you Macharniks to start to achieve the things I've talked about earlier in this article. I hope that part of myself is left with each of you as you are all a part of me.

- Howard Lichtman

Camp Kadimah and Machar Staff

This is only my second year in camp and the last year I came the staff was rotten; but this year I find it extremely well. We have a terrific waterfront staff composed of Val Dean - waterfront director, and Howard Conter, Mathew Burnstein, Bill Eric Chernin and Hannah Jansa as swimming instructors. We also have some terrific specialists, Ian Zetsman and Bev Bernick as sports directors, Phil Dubinsky and Victor Fineberg for tsoufit, Hannah Jansa as sailing instructress, Mile Burnstein as horse-back riding instructress, and Bill E. Chernin, Howard Conter and Mathew Burnstein as swim instructors. They all do their jobs extremely well, and are indeed liked at camp by both campers and staff.

Next our shirkud director, Evy Carnat, does her job far past terrific. She has either a ukalaly or tamborine and participates all the time with the kids.

Next comes the section heads, these four people "have" to know how to handle section and camp problems. These "Lovable" people are:

Greta Nathanson - Gilorim

Billee Laskin - Goshrim

Pam Medjuck - Koehot

Howard Lichtman - Machar

This is just mentioning a few of the staff members for there is not time to go over all the good and bad points of all Kadimah Machar staff. All I can do is leave you with a statement saying how I exactly feel about the Kadimah - Machar Staff and that is, "YOUR TERRIFIC!"

Machar Day

Machar Day is a day where we, the Macharniks, take over the camp. For one full day we become the counsellors and assume all their responsibilities and obligations. I think that this is a very important experience we all should undergo. This helps us appreciate our counsellors even more, realizing all the hard work that they put into each activity every day, just so we can have an enjoyable summer.

Leadership is an important factor that everyone should be able to handle at one time or another. Machar Day gives us the opportunity to express this, each in our individual way.

This was not only an educational experience, but an enjoyable one as well. I had a great time planning, organizing, and participating in the various programs.

Frances Pearl.

THE HORATHON

WE WERE two of the crazy Macharnicks that stayed up till the wee hours of the morning to dance the Horah. You may be asking yourself why we were awarting ourselves on the auxiliary sports field on a gray evening when we could have been in our shug and easybeds, could the reason be that we would have gotten 3 tucks if we would have stayed up till 1:30 or could it be that we would have gotten to sleep in till 10:00 or could it be that the last person gets quadrupal canteen. It could of been any one of these things but we think the real reason that we stayed up till 2:45 A.M. was because we wanted to see if Howard lichtman could live without his beauty sleep.

HITYASHVUT

As being captain in Machar Hityashvut, I realized how hard it is to take responsibility or leadership, over people my own age. I didn't realize until I was chosen to be a Hityashvut captain the work, patience and planning it takes to pull off a hike like we did.

We were split up into two groups each given their responsibility to set up their own site. Each team had to set up a campsite, latrine refridgerator, cooking site, etc.

Hityashvut is some type of Maccabia where each team made their own team song and compete in different events, such as in the making of a Migdal. Even though it lasted only for a short while, all of us found it a "fun" experience.

Hityashvut '77

At approximately 6:15 on a Tuesday morning, July 12th, all the Macharnicks were fully awake. But why? Because our considerate Madrichim decided we needed a Hityashvut. We were given a whole 60 minutes to gather all the equipment. However, we did run into difficulties, as the rest of the camp was sleeping.

After we were completely exhausted from gathering supplies, we dragged ourselves seven miles to our campsite. What a surprise and why? Our campsite was on an island. Soon after, the four captains approached the island. Then at the same time, Iris and Ann started singing the theme song of Gilligans Island "You ask us why, what a jungle!"

Of course our madrichim couldn't pick the run-of-the-mill site, they had to be different. Since we did not have Machete, we decided to use Barry Goldman, our official mechete boy. Here was our humble home for the next four days. "Welcome to Hotel Africa"

A new problem, now arose, who would get what campsite? Believe me, they both weren't the best. Tears, frowns and muddy feet were welcomed as individual team members arrived. Soon the teams were dried but the muddy feet remained.

After a hard days work, we settled down to a good supper. In the evening, we attended a lecture at team one's site. Then we settled down for the night, which was a dry one. The morning dawned with a fog and a good (?) breakfast. While at work we felt the rain drops turn into showers. We hustled our teams under the tarp, which proved to only keep the peanut butter dry. ABC, who was on location at team one, reported that only captain Iris was dry.

Soon the kids got fed up and started a sweet melody of, "WE wanna go home" By this time, we realized that Camp Kadimah was our home. The four captains adjourned to Teams II's Salvador Room to discuss their mutual problem.

After receiving WORDS from the madrichim, we were told to pack up and "ship" out. At Team II's site, captain Ann modelled the elegant new style of raincoats. The invention is called the garbage bag.

In five minutes we destroyed six hours of work, packed up supplies and began sending team members to the mainland while some members were having an enjoyable ride home to Kadimah, others were still back in the "Jungle".

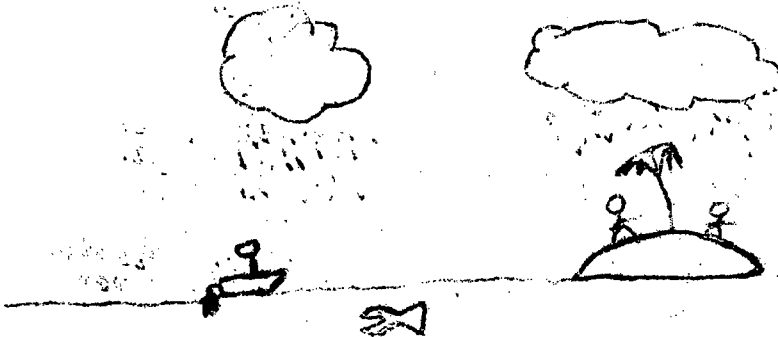

Though it was a short hityasfut we feel that every-o-e enjoyed it. Machar, we would like to thank you for do-operating and not being a bunch of drips. And to all of our madrichim who were resp-nsible well.....Thanks

Your captains,
Ann and Gary
Iris and Joey

Hityashvut

The week was going quite O.K.
Till hityashvut came our way
We packed our bags and prepared to go
But what lay ahead we did not know.
We walked and walked quite a long length
Which took up most of our body strength
When we arrived we drank and ate
The cold water we did appreciate
We boated across to our site
And there we prepared to spend the night
We pitched our tents and set up camp
But the weather became kinda damp.
It began to rain and then to pour
But this wasn't all we had in store
All our clothes and things became wet
But things weren't to get better yet
We all caught cold and felt quite sick
But getting home would be the trick
We pack up our things and cleaned our grounds
While listening to the rain drop sounds
We boated back to the shore
And sat suffering for a while more
Soon we were picked up in the camps truck
And had a bumpy ride home,
With more of our luck
Hityashvut was a bomb but fun
But next time please G-d
There will be sun.

Tisha B'av

This year, Tisha B'av took on a new and different type of view for the members of Camp Kadimah. Not only did the Madrichim present the program, but the Macharniks as well had a share in the activities.

Scenes were created, to expose the cruelty of the Nazis for the campers. A typical scene, was that of Nazi soldiers attacking a Jewish family and killing the head of the household. These scenes seemed to prove effective with the campers, which was pleasing to both myself and the rest of the Macharniks.

Finally our Tisha B'av evening program ended with a recreation of a war crime trial, done by our staff. A man of the present was being tried on crimes he had committed 30 years ago, during WW2. I believe that we all got alot out of this program, and that the thought of Tisha B'av will not be with us on only the ninth of Av, but from this ninth of Av, to the next and next....

I saw a poor man on the street
shivering and bare
He cried in pain and agony
but people didn't care

I saw a blind man on the street
stumbling and scared
He needed help and comforting
But people stood and stared

I saw a black man on the street
ragged clothes he wears
People called him dirty names
and other people glared.

But aren't we all about the same
some qualities we all share
Hey, Isn't everybody being,
a little bit unfair???

Aviva Herman

The dead, I heard them crying
crying out forever; in grief
The Nazi's had tortured everyone
Because of there belief
I heard their plaintiff whimpering
but yet, what could I do
What torturing had come to them,
Many people knew
The reason very simply
Was that everyone was a Jew
Yet we had won the horrible war
We had fought for all our kind
But the thought of all those tortured people
Keeps tearing at our minds
Our Tish B'av we try to think about
And commemorate the lives
If all those innocent people
Of whom we all survive

NO NAME

THE HOLOCAUST

With ease he swoops down and catches his prey

holding no pain, no worry

just fear of being stricken and confined.

Carrying grudges, carrying hate.

Plans enter a mind, plans to destroy.

Destruction is the goal, where strength is needed.

Shoot - kill

Hang - suffer

Work faster, harder, harder

A camp is a place where all are trapped,

Trapped from thinking, believing and from praying.

What is left when all hope is taken away.

When being able to feel and care are strained.

Is it worse to not want to feel or to not be able to feel.

Everyone is sick. Sick of pretending, sick of hiding.

It's time to live and fight. Not just for ourselves

but for all.

Stand up. Be brave. Be brave.

MACCABIA '77

On visiting day Maccabia '77 had blossomed, the judges planned that after our singing exhibit they would sing the Maccabia song, and their plan worked. A lot of people were surprised because they usually plan the opening of Maccabia after visiting day. Personally I was in shock and overjoyed because I think Maccabia is the climax of camp. Maccabia includes events such as boating, swimming and track. The cultural events are: singing, dancing, and drama. Plus you have to draw a banner to symbolize your team name. In my opinion the people that work the hardest are the Macharnicks (at least I did) During Maccabia Macharnicks and staff hardly got any sleep because we were only up until 12:00 at night for five nights in a row. I think though that it was a great Maccabia and I hope I will have even more fun in the years to come.

MACHAR DAY OFF THEME SONG

(Tune: Rolling on the River)

When your down in the Owens
Wear your hiking boots not clogs.
There will be some marshes,
There will be some logs
But don't let that stop you
From movin' on

Macharniks keep on goin',
Feel that wind a 'blowin'
Clogs off - shoes on
Clogs off - shoes on
Trippers of the trail
Trippers of the trail
Keep on movin',
Past the end of
Keep on movin',
Past the end of the
TRAIL

Have you any idea what its like to be criticized and picked on constantly for six, long weeks? About your wierd accent, your strange clothes? Being called 'damn yankee' day and night? Well, we, the two resident aliens of Camp Machar experience this treatment first hand. Your see, we hail from the U.S.A.; Chicago and Boston, to be exact. Now, you might say, so what? Well we'll tell you. Being stuck out in the Maritimes, surrounded by Canucks, with only a few of our own kind (10 to be exact) isn't exactly our cup of tea. So now you ask us, why do you come here if its so horrible? Well, we'll tell you. We don't really know. But what we do know is that the people here are super (even though they're not American!) And we learn a lot from being in the minority. So, all you Americans our there, don't lose hope. There is a place for you somewhere in Canuckland. You just have to look hard to find it!

Take ease,

COFFEE HOUSE

We are now sitting here in the Mel Yad attempting to write an article for the Iton. No particular incidents are flashing through our minds so were not about to tell you what were doing right now.

Machar is scattered atound the Mel Yad in clusters of threes and fours and were writing articles, drinking ice coffee, eating cookies, and every half an hour or so a group gathers in the center of the floor and does a small performance. So far we have been entertained by "Gladness Night and the Pimps" performed by Gladness (Sherry Koven) and the Pimps (Lynda, Shanna, and Wendy) Then we were all relaxed by Gila and Sherry's singing and then by Lynda Medjuck playing Nadia theme on the Piano and Marc and Mitchell in their ballet suits prancing around the floor. Now it is our turn to perform an interesting modern dance so we'll be signing off. It's been a great night at the Coffee House.

CABIN HOPPING

Cabin hopping is a wonderful experience, unless, of course, you get caught. This consists of running from cabin to cabin, visiting freinds, while stealthily avoiding shimara. We shall now proceed to tell you of our unsuccessful experience. Which happened this year. At 11:30 p.m. we were outside, wandering around, about to enter Cabin13 - "The BOY'S Cabin" While standing at the foot of their door we were suddenly approached by head shumira, Victor. We tore back to our cabins with him on our trails. We lay in our beds panting as Victor barged through the door. He shone his flashlight around, looking for the guilty party. He immediatly guessed on one of us but was stuck trying to figure out the other. He accused an innocent person but feeling oblegated the guilty= one accused her crime. We were put on report for cabin hopping and bunked from the social, but believe me, for the fun we had, it was worth it.

MACCABIA '77

Dear Blue Team,

This year has been a great experience for us as captains of the Blue team. The five days of Maccabia proved to be strenuous but yet rewarding. New friendships were made, old ones were strengthened, unity came naturally.

Thanks to your effort and ruach we proved we were the "Cream of the Crop."

Luv your captains
& co-ordinaters
Heather, Joel, Bev, Mike.

Dear Yellow Team,

Its hard to believe that in just five days out team Davidka Katun could work so hard and strive for so much and in the end pull it all together with one BIG BLAST of energy.

As in our song, we were a small but mighty people, but Davidka Katun did the most terrific job during Maccabia and without your support and co-operation we would not have been able to achieve our victory since 2nd place is just a number and to us you're all winners.

From all of us to all of you, thanks, it was a wonderful experience.

Your loving captains
Marlene, Gary, Marc & Carol

Dear White Team,

Now that Maccabia has come and gone, and we look back on the week as a whole, we feel we can say with complete honesty that those 5 days were successful in terms of events, co-operation, chevra, and team attitude.

At the start of Maccabia as we thought about the oncoming week, and all that was to occur, we didn't worry about winning or placing 1st, but rather we were skeptical over whether he would be able to remain up until Friday night as one close team, with everyone enjoying themselves and laughing instead of bickering over a few lost points, games or events. We wanted you all to work your hardest, to the best of your abilities for more that just the want of winning. Maccabia can give people so much, but that's only if the input from yourselves is there. Fortunately this year it was not only for while team, but for the entire camp, from Giborim up until staff. It was proven by each team eagerly willing to help each other, little if none intercabin conflicts, no hard feelings Friday evening when the results were announced, and now, a week later, songs and cheers being sung even louder and stronger.

We want to thank everyone for all you did in making Maccabia '77 what it was this year. Each of you deserves the credit. It was a great week for us and an experience that will remain with us for a long time. We might not have come in 1st in points but in our eyes we came in 1st in terms of a successful and fulfilling Maccabia.

We hope you all enjoyed your summer as well as Maccabia. Good luck in the oncoming year.

Love,
Sharle Lichtman
Barry Crystal
Leonard Abramsky
Aviva Herman

MACCABIA '77

DEAR RED TEAM,

We'd like to write a short note to express our appreciation and gratitude for everything you, as team members, did in making this Maccabia a success in every way.

The fun we had working, singing, learning together and cheering for each other will remain great memories in our minds and we hope they will in yours.

Remember our motto:

A winner never quits

A quitter never wins

When the going gets tough,

The tough get going.

Love from your Captains and
Co-ordinators

Iris Kohler

Lorne Simon

Seema Wolman

Jeff Cohen

Red Team: Marching Song: (Tune: OO La Baloma Blanca)

In 5737 there came a new Maccabia
We are the red team full of ruach
We are the Chalukei Chalav

When a spring bursts forth with water
And the world around it strives
Its a source of inspiration
That will keep us all alive

Chorus

Don't forget we're the red team
In sports, shirkud and bama
Don't forget we're the best team
The red team of Maccabia

The rocks and stones have shown their courage
To endure the driving stream
Just like our land of milk and honey
So let's celebrate and sing

Chorus

Original Song: (Tune: Exodus)

This stone so strong
Is ~~Israel~~ our home
Our land secure in all it's powers
Though time may change it's lines
It will become like wine
Richer and more powerful with time

This spring our source
Is Jews from many lands
United in our common cause
To build this land we share
So that it's earth may bare
Harvests that will keep our people strong and free

With 30 years
Comes unity; and strength
Our lands trown fertile, lush and green
Our pride as Jews has grown
And to ourselves were shown
That we can help each other to be free.

Dining Hall Song: (Tune: Mary Tyler Moore)

It started on a Sunday in July
We must admit this time head staff
Really did take us all by surprise
Into colored teams we were divided
In front of Mom and Dad,
It was decided

Chorus

That Iris and Loren
Would lead us in spirit
Seema and Jeff would help us to steer it
And win this ; years Maccabia

Red Team Dining-Hall Song Cont.

Chalukei Chalav is our name
In track and field, shirkud, bama
We'll put the yellow, white and blue to shame
Cuz our power's from the greatest source.....
The rocks and the spring will guide our course

Chorus

While

Cheer (tune: Rockin' Robin)

We love singin', dancin', rowin' boats too
In track field and swimmin we'll show yellow, white, blue

Reds got the strength to win this game
Other teams shake when they hear our name
Chalukeh Chalav- Red, Red, Red
Chalukeh Chalav- Red, Red, Red

Fight Chalukah Chalav- and we'll win Maccabia

WHITE TEAM

Marching Song (tune: I feel the Earth move)

To know the place called Naveh Midbar
In Israel, Naveh Midbar, Naveh Midbar
To know the feeling of ikptiness
Without that guiding star

Chorus:

Oooh white team
When we're on our way
Nobody can slow us down
And it's so good when we feel it
Naveh Midbar is where we're bound.

We have the strength enough to survive
It's in this place, Naveh Midbar on which we thrive
And if we learn to protect it, we will remain alive.

Chorus.....

Cheer (tuen: That's the touch I like)

We're the white team, we're on the move
We're the white team, we're gonna groove
We're gonna win Maccabia
We're on our way
Naveh Midbar
Oh yeah, oh yeah
Naveh Midbar

We are called Naveh Midbar
We ARE the best by far
We're gonna win Maccabia
We're on our way, Naveh Midbar
Oh yeah, oh yeah
Naveh Midbar

Cheers--White team cont...

We play as a team
We're always on the beam
We shout and fool around
Just listen to our sound

We know we are the best
They'll put us through the rest
we'll come out on top
We don't know how to stop

Repeat First Verse

ORIGINAL SONG

Although we've been stranded so very far from home
Sometimes we still feel secure just listening on our own
And though the past is over, and the future is yet to come,
We know there is a place for us somewhere in the sun.

Chorus

Naveh Midbar, Naveh Midbar
Oh yes theres a place for us in Naveh Midbar

We don't need directions,
we know which way to go
People try to hold us back yet they can't stop us grow
All of us together, working for our goal
We know there's a place for us, Israel's in our soul.

CHOURS:

The times we have been through
Have not always been the best
but we canmake the years to come
Better than the rest.
Reaching out to touch the earth
Our journey's brought us far
We know ther's a place for us
in Naveh Midbar

CHOURS:

MARCHING SONG (I FEEL THE EARTH MOVE)

To know the place called Naveh Midbar
In Israel, Naveh Midbar, Naveh Midbar
To know the feeling of emptiness
Without a guiding star

CHOURS:

Oooh, White team
When we're on our way
Nobody can slow us down
And it's so good when we feel it
Naveh Midbar is where we're bound

We have the strength enough to survive
It's in this place, Naveh Midbar on which we thrive
And if we learn to protect it, We will remain alive.

CHOURS:

(Tune: Ring a Dang Doo)

Maccabia
Of '77
With Mike and Bev
And Joel and Heather
Will be the best
This camp has seen
We're at the top
We're the cream of the crop, crop, crop, crop...

Yellow Team: Marching Song: (Tune: Marine Hyme)

We're a small but mighty people
With a right to our own land
We've been challenged thru the ages
By many a different man.

From ancient times till '48
We have struggled to survive
The roar of Davidka Katun
Has kept our faith alive

Now Maccabia of '77
Reminds us of that sound
It's a source of inspiration
The spirit will resound

The red, white, blue, and yellow
With ruach will revive
The roar of Davidka Katun
And keep our faith alive

Cheer: (Tune: Riding on a Donkey)

In the was of '48
Odds were stacked against our fate
But Davidka's roar was great
Israel was born. YEAH!!

Davidka Katan. Work together, having fun
Davidka Katan. Give a roar together
ROAR! (Girls) ROAR! (Boys) ROAR TOGETHER!!
