AN EXPLANATION OF OUR COVER

It is the end of the summer and a child is sadly reminded that camp is over for another season. But wait, it's more than just that, something is wrong. Why is there a tear being shed? This is the last summer of Camp Kadimah, when it's gates are closed this summer, they will be locked. The child's grandfather remains in the background, mourning quietly the loss of his second home and realizing unhappily that his grandson has not had the chance to cement the bonds of friendship, just as he did at Kadimah.

He will sever the chain of generations that have come to Kadimah and the family link to Judaism will begin to crumble.

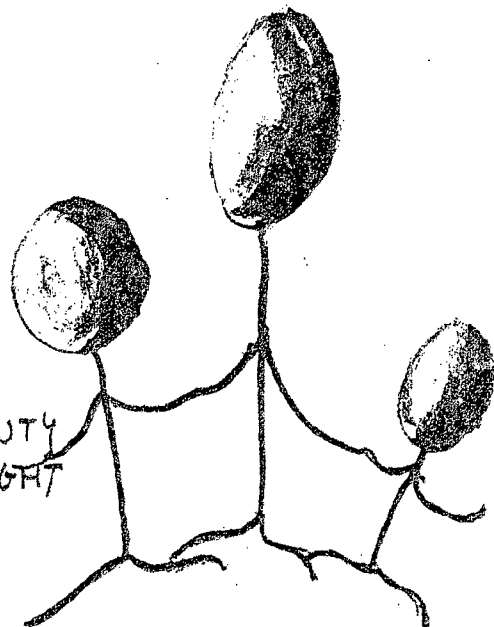

IS THIS FICTION OR FUTURE?
IT'S YOUR DECISION.

CAMPSONG

AS LONG AS WE ALL PULL TOGETHER
KADIMAH WILL GROW MORE AND MORE
OUR CAMP WILL BE BIGGER AND BETTER
THAN EVER IT HAS BEEN BEFORE.

CAMP KADIMAH IS ON THE MARCH
WITH FLAGS UNFURLED
JUDEANS ARE FOR UNITY
FOR A BRAND NEW WORLD
JUDEANS ARE FOR UNITY
FOR A BRAND NEW WORLD.

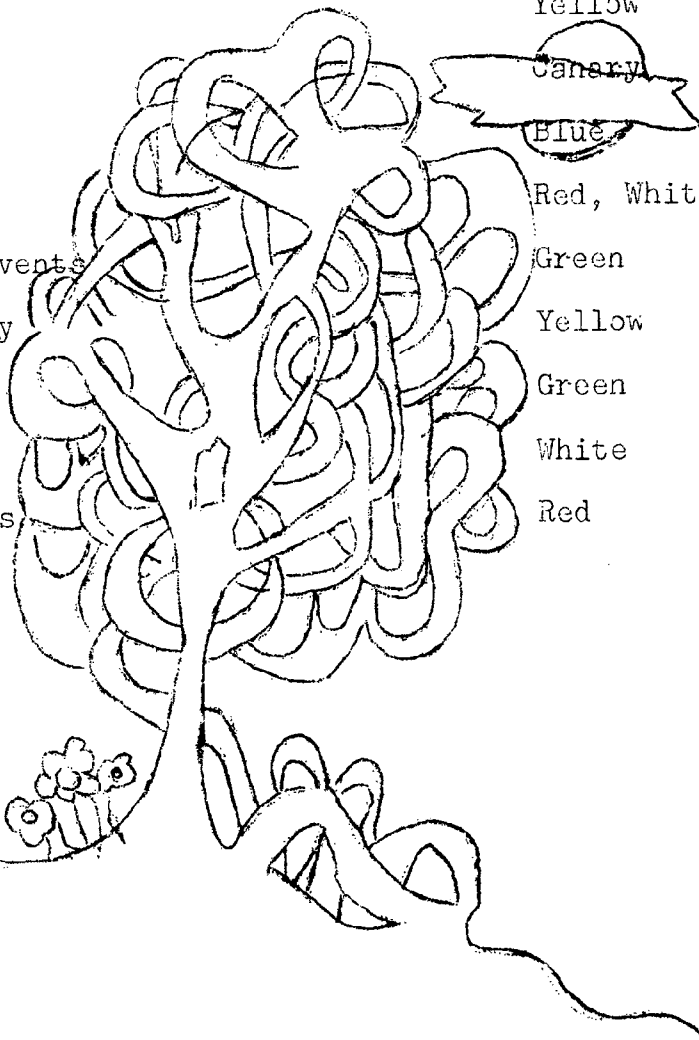

OUR CAMP IS A THING OF GREAT BEAUTY
LET'S LOVE IT WITH ALL OF OUR MIGHT
TO LOVE ONE ANOTHER'S A DUTY
UNITED WE'LL ALL WIN THE FIGHT

DEDICATION

And where will we be next summer? All of us are fortunate in that we never have to answer that question; it's so easy to take a place like Kadimah for granted. But where else can one receive a well rounded and realistic Jewish education while learning to sing and dance at the same time? It is only here that those from the Atlantic region have the chance to live in a totally Jewish environment for a few weeks of the year, therefore Kadimah is unique. For the people from outside provinces, it is a chance to relate and observe how Jews in non-Jewish surroundings live. For anyone who spends six weeks or even seven here, Kadimah provides an easy lesson in friendship, unity and consideration for others as well as helping to discover oneself's dynamic spirit and enthusiasm.

Ask yourself how long the friendships and relationships you have made here will last. A year? A decade? A lifetime? How can you measure a daughter's pride when one day she discovers her father's name on a cabin wall? This camp is not only the product of this generation; when the cars drive in the gate on Visiting Day another age of Kadimah campers eagerly rush in to observe how their camp of yesterday has been moulded by their sons and daughters.

Our Iton is dedicated to the future of Camp Kadimah, in the hope that this generation will not allow a dollar sign to blot out this camp's existence, in the hope that you will give your children the opportunity to experience what you have had at Kadimah. If we could only predict and rely on the future of Camp Kadimah as we do Ezra Eisner's return each summer.

EDITORS' MESSAGE

How do we begin? Our iton, yours and ours, is almost finished for another season and we are about to close the doors and walk away from late nights and long hours. The shelves are practically bare with the exception of a few lone stencils hanging idle in the corner. Only a few articles left to be written and it is now time for us to become the authors. We know ourselves that its not an easy thing to extract a few rushed minutes from a hectic day and transform jumbled thoughts into eloquent phrases, but it seems as though many have succeeded and certainly everyone has tried, us included. In the end it matters not whether your article was a page or three lines, nor if it was a poem or a puzzle or however reluctantly or willingly you agreed to do it, what counts is that you did it and your name is there. This iton is not and never has been the work of the gifted few; camp is experienced by everyone and, like this summer, everyone has helped to compile the memories of a season in our iton.

It's difficult to keep this message in an optimistic vein, the trunks are being brought out tomorrow and everyone's thoughts are turning homeward. Walking around the camp we see a collage of faces relaying a mixture of emotions; for those who know and can feel that when they leave on Wednesday morning that they will never again enter the gate to start a new season, there is an intermingling of thoughts. Gradually, the pain and sadness fade away into the background as sentiments and a sense of satisfaction from summertime achievements paint a final portrait to be cherished in future seasons. For those just beginning it is an easier goodbye, thoughts of how to make next summer even better than this one, are already planted and taking growth in their fertile minds.

If you have learned something from this summer we certainly hope that this thought is included; Remember, Wednesday is the end of the season, not the end of our experience, how you act in the city and how you react to others will be a reflection on this summer. Our iton serves a purpose, it is a mirror illustrating the times of a season. Time doesn't stand still and this iton like the summer, is almost completed, but the memories and the typewriter ink will live on.

Til we meet again,

Love,

Judith + Victor

GLANCING BACK

KADIMAH, holds a very special place in my heart which will never cease to exist. At times I wonder, and ask myself "Self, what are you doing here"?, but the answer is always close by. In 1965 I came to Kadinah as a fresh, green, spunky camper, not knowing that it was only the beginning of many many more summers. Being a camper in Kadinah until 1970, there were many instances when I truly wondered what I kept coming back for. Those summers of years past, had the good and the bad, but it's kind of funny that now when I gaze back, I can't seem to remember the bad. Oh yah, there was the time when I got a dart in the side of my arm, and the time I lost canteen for a week; but now they all seem so trivial, and in fact they were trivial immediately after they happened.

In 1971 I began to realize that camp was present not only to have fun, but also to learn a little, in the hope that in the future I'll be able to do the same for others. That was my first summer in Camp Machar. It was the summer when "Everybody's Talking About This Chevra We're Feeling" was written, and this chevra is still felt by myself seven summers later. Machar was great for me; it offered fun, learning, maturity, and many other valuable assets which are essential in one's growth.

A new episode in my life began the summer of 72. Kadinah was no longer present and only the unfamiliar faces and environment of Camp Solelin was. I spent two summers there, and the faces became very familiar, but the environment and atmosphere never did. The fun was present, as was the learning, but there was something missing; this missing part is unexplained in words-only by feelings.

74 was the summer in which I finally arrived at Biluin, and Hadracha was learnt, or supposedly so. Many faces were the same as at Solelin, but the summer proved to be the revitalization of my yearning to go back to Kadinah. I noticed my fellow Maritimers who I had gone to Kadinah with, were so different than my Solelin friends who were mostly from Ontario. Everyday at meals when songs would begin, it was the Atlantic kids with all the chevra, and enthusiasm. When "We are from Atlantic, the region that is best", was sung at the top of our lungs, a feeling went through me, the feeling was full of truth; the truth was that my region was the best. Maybe the region itself was no different from other regions, but the kids certainly were.

Leaving Kadinah in 71, I knew it was just to experience other Y.J. camps, and to find out about myself. Self did find out. 75 I was back to where my summers all began. I was once again living all my talk from the previous few years. Puzzled, I questioned myself; "If Kadinah was so great to me, why did I go elsewhere"? I know why, and it was quite evident that I didn't really know how to appreciate Kadinah, until I wasn't there. The summers of 75, and 76, I was senior councillor with scouting responsibilities, now I was finally in a position to help others learn, have fun, and appreciate camp; the camp that was so special to me. Something was missing... The kids were different, with different values, ideals, wants, and needs; Or were they? Maybe it was that I was just trying to do a little comparing with the past and the present, and the kids were exactly the same, and I was just in a different position; that being, I was the one looking on, and not looked at.

cont.....

The past four summers that I've spent on staff and head staff have been important ones to me. I now can really understand why Kadimah is so very, very special to me and other Jewish kids from the Maritimes and other furthur away places.

Kadimah offers so much to everyone, and is more than just a camp.

Kadimah is a place to love, share, grow, learn to trust, learn about oneself and relate to others, create new friendships and relive old ones.

Kadimah is a place where we all learn to appreciate how lucky we are to be Jewish and have such a beautiful place to spend the summer.

Kadimah is everything and even a little bit more than one could expect to ever achieve in a summer

THANK YOU KADIMAH for all you have offered me, and I only hope that you are around to offer others as much as you did me.

Thanks ...

Victor Finsberg

REFLECTIONS ON MY SECOND HOME

When I first stepped off the bus on that appointed day in a season long past, I was filled with mixed feelings of anticipation and excitement. Not quite nine years and yet never having attended a summer camp outside the city, particularly one that lasted for such a long period of time, I did not know what to expect nor what I would experience once the initial homesickness wore off. It did not take me long to realize that being a Junior (the former counterpart to a gib) was at once fascinating and time consuming there was no time in the summer of '70 to think about the security of home or friends left behind, because it was all here at Kadimah - and more.

My second and last year in the youngest section of a camp of close to 250 people was unpredictably different. The novelty of being away from home and encountering a new situation, had worn off. At ten years of age, my eyes opened wide onto a world of 250 individuals full of spirit, zest and a general concern for maintaining a high pitch in both unity and friendship for six weeks of a year. For the first time I began to understand that Kadimah was shaping me into an awareness of my growing self; it was teaching me to be independent and individualistic and yet trusting of my newly established friends. It was producing in me the desire to extend myself, to share and live with others, feeling was being nurtured in my mind of what true friendship and consideration was something I could not have learned living at home every day of each year.

The next two summers passed all too quickly for me, camp was changing, just as I was: I moved into a new section entitled "goshrim" in 1972 and discovered the value of summer friendships which blossom into year round commitments. I began to understand that Kadimah was not a "filler" or an interval between the end of a school year and the commencement of the next. It was no longer a period of days which occupied my endless summer boredom nor a method by which my parents could liberate and therefore enjoy themselves. I was coming back to the same place each summer of my own free will, without the need of a parents sharp insistence. All this set the stage for the summer of 1973 - an unforgettable memory. Just turning twelve, I was cast into the oldest section of Kadimah amid the turmoil and onset of early adolescence. Tears and torment vexed our Saturday night post social discussions while laughter and levity colored the late night shenanigans, and nothing could match my pride when my team won my very first Hityashfut. It was a season when having a good friend or a great counsellor to share secrets and sorrows with, really mattered. Perhaps because I could not return the following summer, I have always held that last Kadimah year especially dear.

(cont. ...)

REFLECTIONS (cont.)

I had always looked up to the Macharniks with envy. They had the spirit, the unity and the friendship that both symbolized and nurtured our camp. When it was my turn to take on this responsibility for two summers, I found that I had been neither deceived nor disillusioned. The effort came easily, the feeling was there. No pretense was necessary, we sang, shouted, clapped and cheered because we were Machar. Not a separate camp but a more mature Kadimah. It prepared me both psychologically and emotionally for my next step in the progression of Young Judea '77. I went off, timidly, to Biliuim Canada. It was easy to adapt to life away from Kadimah because those from other camps and regions took readily to us; we were Rosh Va'ad Chevra, Hityashvut and Tarbut, we sang the loudest during the meals and we pulled the best kuntzes. Our mannerisms, ideas and attitudes had been inspired by years of Kadimah experience.

This year I have observed Kadimah through a different window, I am no longer ignorant of the mechanisms and workings of this complicated machine, I now fully understand and appreciate the effort and enthusiasm which must go into one summer. There is so much more to this camp than just what is seen at an evening program or a morning peula much more to appreciate.

And now? Now this Kadimah child has come full circle.

Good luck,

Judith Shanon

make it the success that it is (we hope!)

THIS IS WHAT MAKES KADIMAH SO VERY SPECIAL TO US.....

- when a weight watchers program is offered;-free of charge
- when you only see peanut butter and jam at breakfast,lunch,and supper
- when the rain only comes on an overnight
- when the R.C.M.P. are not tall,dark,and handsome
- when periods come more than monthly
- when the camp van qualifies for the Indy 500
- when the only successful Hafta!ah of the summer is a fire drill
- when pie is no longer a novelty
- when a visit to Machar is like a night in Japan
- when after the six weeks have come and gone and you wake up in your own soft bed at home,only to wish you were back in your lumpy bed at Kadimah
- when you've already chosen what to wear on the bus back to camp next summer

.....AND THE CAMP SEASON ENDS,YET THE FRIENDSHIPS,RELATIONSHIPS,

MEMORIES AND CHEVRA LIVE ON THROUGHTOUT THE YEAR

.....and we hope this is what makes
it so very special for you too.

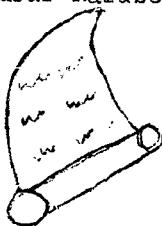

Good luck in the future,

Judith

A Note from the Director

This is in no way intended to be a Director's report as I've decided that it is absolutely impossible to report on a total summer's experience in a few paragraphs. Instead I've decided to let you into my head and examine a few of my thoughts as camp draws to a close.

Eighteen consecutive summers at Young Judeea camps and the circle has finally closed. I've spent approximately 1080 days (3 full years) in total accumulated time at camps. It's a long way from being a junior camper at Camp Shalom to being camp director at Camp Kadimah. There is only one word to describe my reason for continually returning to camps -- intensity.

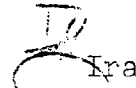

Here in my office the chair beside me is empty for a change. That chair has been witness to an array of intense emotion from tears to laughter on the part of campers, staff, and even parents. Dealing with these feelings has caused us all to grow both individually and as a cohesive camp unit. This cohesiveness has made Kadimah '78 the success that it is.

Living together for a summer with a group of people is a very intense experience. Conflict, frustration, love, hate, anger, sadness, happiness -- are emotions that are also intensified and you, campers and staff, have been forced to deal with these feelings because of the camp's very structure. At camp you cannot go to your bedroom and close the door; you cannot close out the world. This intensity of living together is what draws me back to camp each year.

We have become more aware this summer of our past. We have traced the 'Roots' of four concepts which have continually occurred throughout Jewish history: creation, revelation, expulsion, and redemption. Maccabiah allowed us to develop those 'Roots' into possible future 'Routes' for our Judaism and Zionism.

You also are now part of a main root in the Maritime Jewish Community Tree -- i.e., Camp Kadimah-Machar. This main root has given you your nourishment and as a result I've seen you grow this summer. The experience of observing and contributing to that growth has been most fulfilling. As for the future -- the 'intensity' of Kadimah-Machar '79 awaits us all.

"ON RETURNING..."

BELARIE AND I WERE THRILLED TO LEARN THAT OUR PLANS TO GO TO CAMP KADIMAH FOR THE SUMMER HAD WORKED OUT. ALTHOUGH WE WERE A BIT FRIGHTENED ABOUT RETURNING AFTER A FOUR YEAR ABSENCE, WE SOON FOUND THAT THE SURROUNDINGS AND PEOPLE WERE JUST AS FRIENDLY AS EVER.

OUR FIRST FEW DAYS WERE SPENT GETTING ACQUAINTED AND REACQUAINTED WITH OLD AND NEW FRIENDS. AND SOON THE CAMP FELT LIKE HOME AGAIN.

WE BOTH FEEL THAT KADIMAH IS AN ESSENTIAL PART OF THE JEWISH COMMUNITY IN CANADA. IT SERVES A PURPOSE -- BOTH ON A SOCIAL AND CULTURAL BASIS

FOR BELARIE AND I, THE SIX WEEK SUMMER BREAK HAS BEEN BOTH REFRESHING AND EDUCATIONAL AND WE FULFILLED OUR DESIRE TO LEND A HAND AND TO TRY AND SAVE OUR FINANCIALLY BURDENED CAMP. WE HOPE THAT WE HAVE HELPED, AND TO OUR SECOND HOME WE SAY

A LONG AND HEALTHY LIFE

Love,

WATERFRONT DIRECTOR'S REPORT

Camp Kadimah is situated on two sides of Lake William. Joining the two halves is a bridge and connected to this bridge is the waterfront. It can therefore be accurately stated that the waterfront is the centre of Camp Kadimah, and that camp is based around the waterfront. Thus whatever happens on the waterfront strongly affects the rest of camp. Knowing this, the waterfront staff was determined to make the waterfront a fun place, a learning place, and most importantly a safe place.

Swim instruction was run much the same as in past years with Red Cross awards (juniors to seniors) and Royal Life awards (Lifesaving 1 to Bronze cross) being taught. We diverged from the Red Cross awards with our lower level swimmers and held water orientation for them. The theory behind this is that younger children should become relaxed and confident in the water, so that when their endurance allows them to enter the deep end they will make better swimmers. Lifesaving classes were also offered as chugs (hobbies), but were poorly attended.

The implimentation of unit wide free swims increased the amount of fun that was had, and allowed the waterfront to be used to its full potential. Free swims are highly lifeguarded general swims for one section at a time, in which all the play things on the waterfront (paddleboards, inner tubes, unsinkables, slide and dive) can be used.

Waterskiing had it's usual successful summer with several of the better swimmers from the giborim section attempting, mostly successfully, to ski. The more advanced skiers continued to improve mastering such difficult treats as the flying one ski start. Even land lovers like Irwin Simon and Jeff Cohen were doing mean "leans" by summers end.

Sailing, now in its' third summer, was extremely successful. Under the direction of Bernie Soicher nearly two dozen campers learned how to sail out of the bay (and almost one dozen learned how to sail back). Seriously though, there are now several competent sailors in the Kochot and Machar section.

For the second summer in a row, Howard Conter has transformed the back lagoon into the home of the "Camp Kadimah Canoeing School". With the aid of several talented staff members the canoeing chug has again been much more a technical course and much less a "paddle around".

The waterfront was a very busy place this past summer. Much of the credit goes to the waterfront specialists: Bernie, Randy, Barry and Mitchel (our W.I.T.-waterfront-staff in training), thank you. I'd also like to thank the many staff members who gave up their free time, came down to teach or lifeguard, thanks.

Have a good winter, take a swimming course - and always respect the water. Think

Water Safety.

LANDSPORTS REPORT

As I sit here writing this report, I say to myself, where has the time and the fun gone?

This summer turned out to be a successful summer, as far as sports were concerned. Campers had four periods of sports a week and during these periods they were offered a variety of sports, and instruction. During our rainy day, we showed films such as Canada Russia Hockey Grey Cup, etc.

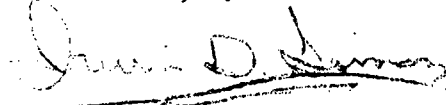

For the first time in many summers, we offered House Leagues where sections were divided into different teams to play different sports and this proved very successful.

For the staff, it proved a success although the Head Staff and General Staff met in a few clashes, but it seemed that the Head Staff was always on top. Then there was a Camp Kadimah Pro Staff Softball Team, which ended the summer with a 2 and 1 record which was not bad, and Kadimah is looking for a major league franchise next year.

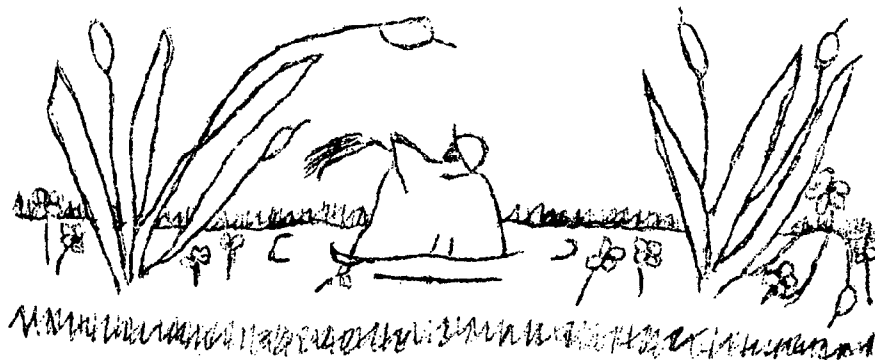

In general, sports were great and this is essential because sports are a big activity in every person's activities at Camp Kadimah.

Last, but not least, I would like to thank three important people, without whose help it would have been difficult to succeed. And with this I give a very special thanks to Jeff, Ian and the weatherman for a successful summer.

Once more, my thanks:

TZOFIUT REPORT

Having no rough copy in front of me and no idea in the world what I'm going to say, I feel pretty lost. One may wonder how the scouting director can feel lost, but I promise you all that when in the woods my compass was close in hand, and there was never anything to fear. In writing this report I have one advantage; that being no one is pushing me to have an article in on time, that may be the reason I chose to edit this Iton. In this article I must talk about scouting, or lack of it, and not what a fine Iton this is going to be.

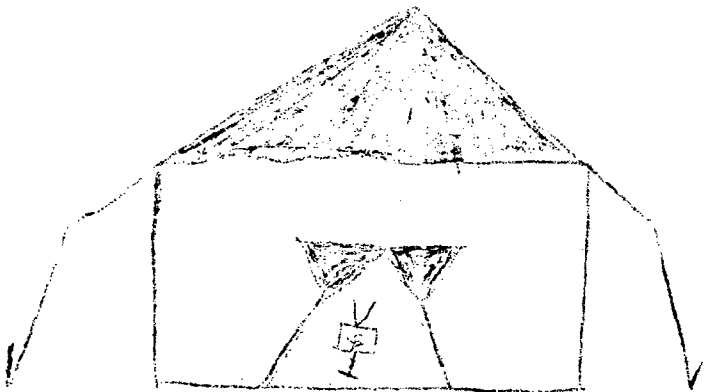

Scouting... In 75 when I first started to help in scouting, I learned something very important, and that being.. "When is Hityashvut", does not mean that the kids are wondering because they are excited and want to go, but that maybe if they complain enough, they won't have to go. Over the past two summers I've tried my best to change that. At present I honestly believe that all look forward to hikes and complaints are only to get out of walking, and not to get out of a hike.

All sections in camp had at least an overnight, and unfortunately weather did not permit Kochot to have their Hityashvut. To the Kochot captains and all the section I am sorry that your chance for a Hityashvut will not come this summer but don't feel too bad, as next year your chance will come for sure. Machar; I think all of you will agree that your overnight at Indian Falls was a lot of fun, and your Hityashvut was more than a great success, as well as a great experience. Besides having fun, I hope all of you learnt a lot. To Giborim and Goshrim, I'm sure all of you found out that hiking is not all that bad, and it's even a little fun.

I'm sure by now it is quite evident to all, that I can't write a very interesting article on such a topic as Tzofiut. Concluding I'd just like to make a few thanks.... Thank-you to all of Machar for helping me help you have a great Hityashvut. As well, I'd like to mention that it had to have been the best hike I've been on in my four years connected with Tzofiut at Kadimah.

To all of you I yelled at during the summer, I'm sorry and it was done in the hope you'd realize your foolish mistakes, and learn by them. And a very, very special THANKX to Seymour Rafuse who helped me in many ways, and especially in my crippled state for the last two weeks of camp.....

*It's been fun,
Thank-you
Rash Tzofiut*

RIKUD

We danced the summer of 1978 away all too quickly at Camp Kadimah-Machar. There was much participation in the Rikud activities this summer, maybe because we modernized our rikud program. Rikud in Israel is not just 25 year old folkdances but also "chevra" dances with modern music to which the younger Israeli generation has set dance steps.

From "Ipi-Tombi (Haya)" to the Friday nite dances before the camp to the visitors day dance programme, - Rikud this summer was an integral part of Kadimah.

I greatly enjoyed the experience of being part of the Kadimah community and if I was able to provide you with even a little enjoyment from our rikud activities then I will feel that my goals were achieved.

Good luck in the future. Hope to see you next year at Kadimah. (Maybe)

Keep dancing,

Susanne

CANOEING REPORT

There has always been a lagoon hidden behind the bridge, and it has never really been utilized, but that has all changed. This water space is now filled by avid canoeists, who partake in the Kadimah-Machar canoeing program. The program is used essentially to teach the campers the basics of canoeing, and for the first time, it can be honestly said that this area has been covered. The participants have learned canoe theory, safety and of course, paddling skills. The canoeing program has involved the full camp this year, with people from Giborim all the way up to Machar being involved. The motto for our program was to combine safety and enjoyment. All involved will agree that the motto was followed. Canoeing, for the first time, became a valuable choice for a hobby, and a period which the campers enjoyed, while learning.

With a final thank-you to my canoeists, and to Marla Goodman, Leslie Rosoph and Bruce Simon for the tremendous service they supplied to the program.

Sincerely yours:

Howard Cohen

Canoeing Instructor

SAILING REPORT

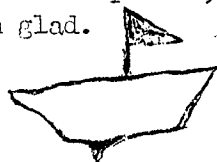

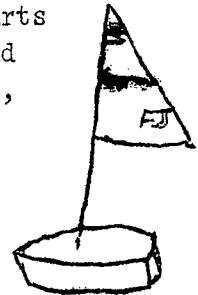

Sailing, here at Camp Kadimah is now in its third year. Each year the program improves as more and more campers get experience in sailing. The camp has a fleet of five flying Juniors, which serve as great teaching boats.

In the class, we learned how to distinguish between the parts of the boat: bow, stern, port, starboard, mast, boom, sheets and hallands. They learned how to rig them, how to put up the sails, and get the boat ready to go. Then, last but not least, how to sail.

Getting the boats ready during pre-camp was aided by the great Ezra Eisner, who was able to repair all of the rudders. Thank you, Ezra.

Hopefully, all the people who took sailing enjoyed it, and will continue to take an interest in the sport. As for myself, I enjoyed being here at Kadimah. The interest that most of the campers displayed during the clugs, sailing display and Saturday sails made it all worthwhile.

Special thanks to Ray Zatzman for the help driving the crash boat all summer long. Sailing, like anything else, takes work, and from the effort put in, the campers get their own reward, and for that I am glad.

Thank you:

Bernie Sincere

Sailing Instructor

92 C.K.B.C. YOUR SUMMER 78 STATION...

This summer CKBC had it's best summer since it's five years of broadcasting in camp. CKBC provided morning shows and afternoon shows for the listeners of camp. The morning man of CKBC was Lorne Simon.

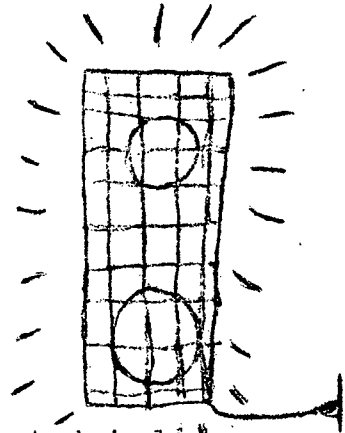

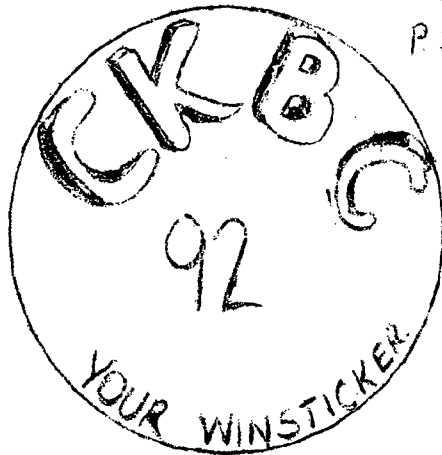

CKBC sponsored a winsticker contest which went over very well; many people stuck with us and won great prizes. We sponsored the socials every Saturday night, which I know many people enjoyed, as well as the Disco 92, which went over very well.

This summer CKBC purchased new equipment, like a reel to reel tape machine. Something really big this summer was the CKBC newsmobile 1, where we did many live reports throughout the summer. Baseball games and Record Breaking day were also broadcasted.

The music was great, with mostly top 40's, and a few oldies. The technical part of CKBC helped in many areas throughout the camp. To sum everything up, CKBC ran very smoothly and I would like to thank all the people who helped out. I hope everyone has a great year... So remember 92 will always be Camp Kadimah's number 1 radio station; until I turn you on again next year, TAKE CARE,

Thank you
Lorne Simon,
Program Technician,
Manager of CKBC 920

P.S. Thank you Mike Freedman
and Marty Zatzman

1978 TECHNICAL REPORT

As program technician, I thought that the camp ran smoothly technical wise, There were a few problems here and there, but nothing too serious for myself to handle. An example of some of these problems were the fire alarm, P.A. speakers, and a few odds and ends here and there. I really enjoyed my work as program technician this summer. I first got started in this field when I came to camp in 1973 as a camper and followed Marty Zatzman, who was then doing the job that I am doing now. Every year since then I got involved more and more in the technical area's of camp. I finally became Program Technician in 1977, and once again this year. I hope to back next year because I think of camp Kadimah as my summer home.

WATERFRONT STAFF '78

As I came into camp upon the bus, I wondered about my responsibilities on the waterfront. It was then that I saw my leader. A bold-looking man was he, answering to the call of Matthew Bernstein.

Once we arrived, it didn't take long to get down to work. My assistant leader, Howard Conter, greeted us with scrapers, as we began the task of scraping the docks.

I was then introduced to my other associates for the summer. First, Barry Crystal, a fellow Torontonionian. Next, our sailing instructor, Bernie Socher, from Montreal. It was a week until our final member arrived, but he did arrive with some desperately needed help. His name was Randy Gordon.

It was back to the scraping, and when the docks were scraped, we broke out the paint brushes. There were weeks of hard labor under the threatening sun. However, after the docks were finished, we had a place to be proud of.

Matthew and Howard lived in the waterfront cabin. It was a tough life for them. A stereo system, lamps, kettles, double mattresses. My heart just bled for them.

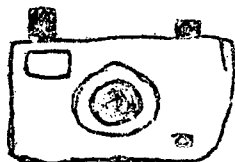

In conclusion, my first year on the waterfront was an experience, but having five people like these to work with would make it an experience for anyone.

P.S. My tan still beats yours, Howard.

PHOTOGRAPHY

This year's photography chug was very successful. I taught (on the average) three classes: Kochot, Goshirin and Machar, about 20 people in all. The first week of camp we devoted to outfitting the centennial cabin, and the kids really learnt the meaning of the word dark room. After thousands of miles of masking tape, and hundreds of square yards of light insulation material, the cabin was finally dark enough to begin printing pictures. The campers went on "pictur - outings". Field trips where a group ventured out into the world, specifically looking for a pretty portrait - and they found many, much to the embarrassment of some of the less liberal members of our Kadinah family. On visiting day, a photography display was set up in front of the Ulam, illustrating many of the campers' talents, and mine. Many concepts associated with black and white photography were taught during the class and the kids seemed to absorb and enjoy them. I enjoyed teaching them.

Michael Abransky

Tae Kwan Do, the Korean branch of martial arts was among the many activities offered at camp this summer. I was impressed in the beginning when five Rochol campers and eight goshrim campers signed up. The thirteen campers that were involved in the chug cooperated well and did express a desire to learn.

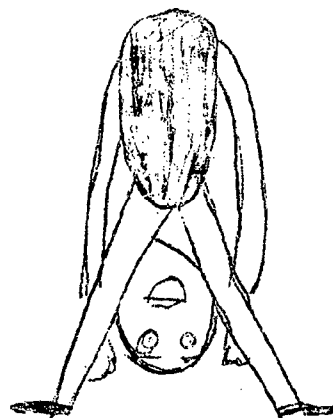

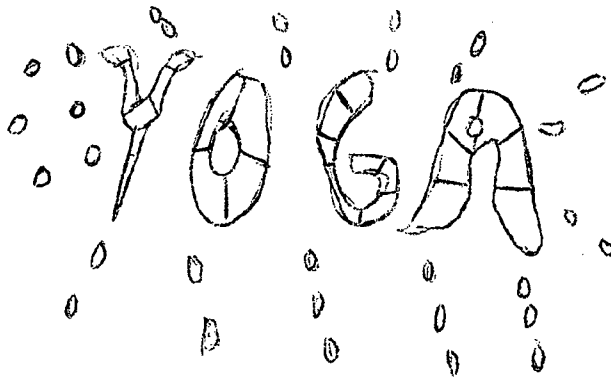

As with many of the other activities, classes were limited. Even though there wasn't much class time, the kids learned the basic kicks, blocks, and punches which were demonstrated in front of the camp.

I would like to thank Suzanne for her help with the teaching aspects of self defense. Also the campers that made the teaching easier for me; Cherise Devlin; Eric Altman; Neil Brown; Steve Floman; Jan Mathanson (when her knee got better) and all of the goshrim participants. Bruce Lee would be proud of them. Cheri at Kenyay, Larry Goldman

YOGA CHUG

Yoga chug this year was a different experience for Kadimah-Machar, mainly because it has never been offered before. This unique chug focused on stretching and increasing flexibility, although the participants would rather have relaxed. We tried to combine a mixture of both because relaxed muscles stretch farther. Most people surprised themselves with their ability-most of us have mastered the lotus, headstand (the yoga way), the turtle and other such positions. In conclusion, yoga was a different type of exercise class (we didn't get into meditation) and hopefully the chugites will remember how to breathe! Esther Levine

P.S. Thank you Suzanne for taking the class when I couldn't.

DOCTOR'S REPORT

Several aspects of camp life are notable to a visiting physician.

The joy in thought and activity demonstrated by enthusiasm for both drama and sports is a pleasure to watch.

Oneg Shabbat skits indicated that campers were sensitive to the world at large and Jewish existence even in the midst of an enjoyable and activity filled summer.

The sports activities hopefully will have provided campers with skills which may help them to avoid some of the illnesses to which our society is prone. In particular those related to underactivity and overeating.

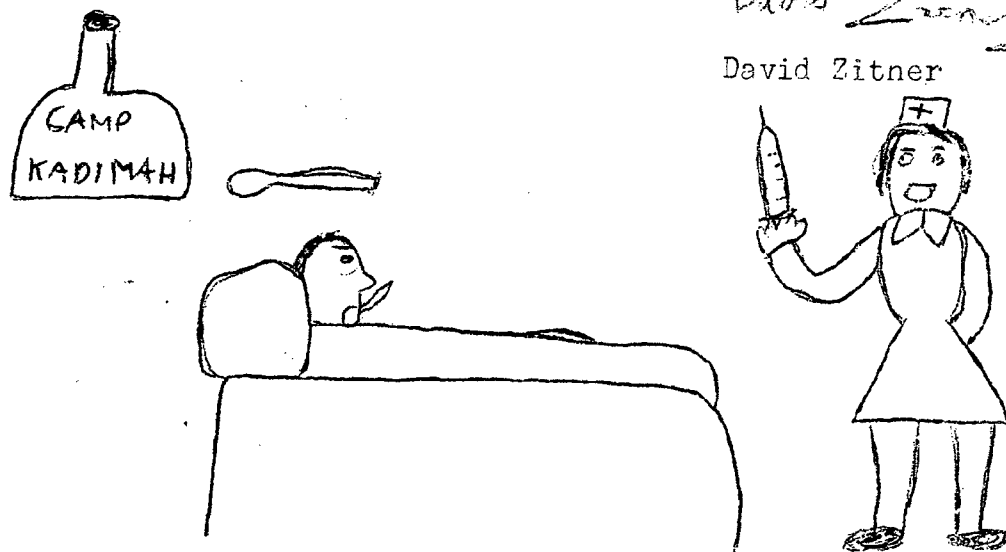

The work of a camp physician is made easier by campers who can distinguish between the minor self limited illnesses which healthy people briefly acquire and those illnesses and injuries which might be more serious. Most campers at Kadimah showed maturity in being able to distinguish between injuries and illnesses which require medical intervention and those colds, cuts, scrapes and bruises which clear themselves with tender loving care of any type.

Hopefully campers will retain and use those skills which they acquired and improved at Camp Kadimah which will help them to lead healthy, happy and thoughtful lives in future.

My family and I enjoyed the camp's campers and I am sure that Miriam is looking forward to the time that she can participate in the joys of camp life as a full fledged camper.

ODE TO THE INFIRMARY

The return to Kadimah,
In an old familiar place,
Remembering old faces;
Meeting new friends;
Both kooky and sane.

Oh, those busy days,
The sunshine and the rain
The bruises, the scrapes, the runny noses;
With a chip-"mump" face,
Hot chocolate and toast
Matzi's toes, Ray's throat.

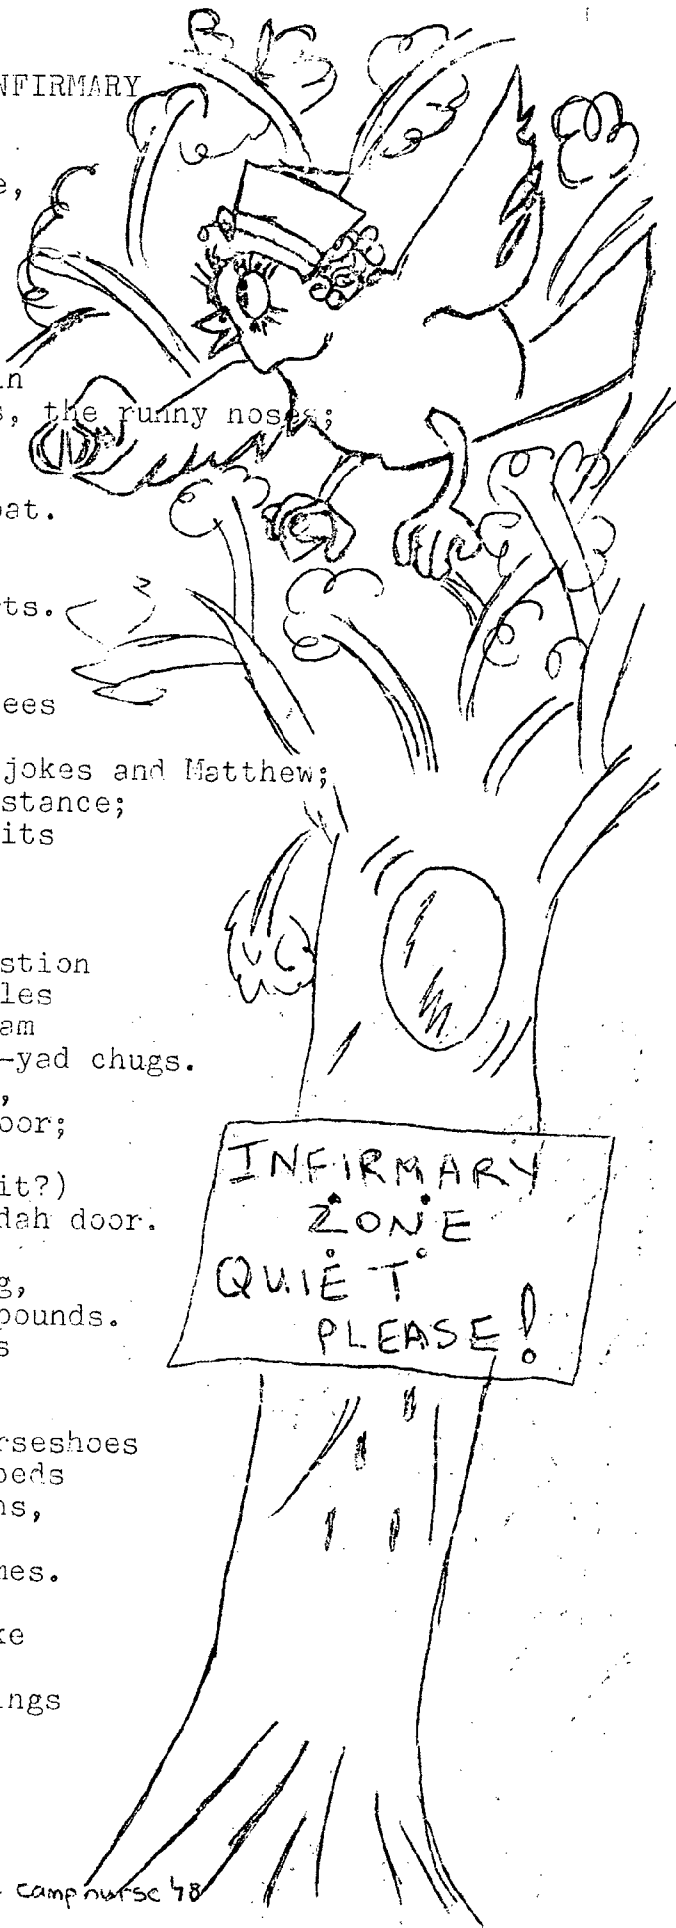

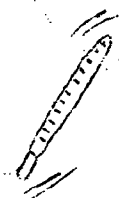

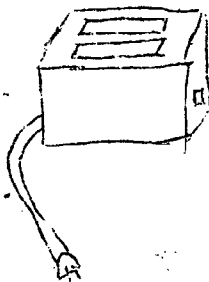

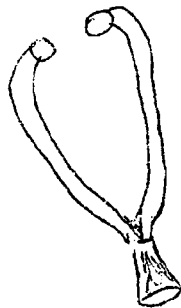

The tinkling of bells
Heard at the tennis courts.
The call in the night
For a troubled ear
Hot water bottles and knees
The stars in the sky
Swimming excuses, dirty jokes and Matthew;
Miriam and Glenna's assistance;
The camper and staff visits
Both sick (?) and well.

Soaking water fights,
Whooping coughs of congestion
Arm wrestles, body wrestles
Crushed pills in ice cream
G-d's eyes and those mel-yad chugs.
The springs of the chair,
Fallen through to the floor;
Centigrade thermometers
(What's that in Fahrenheit?)
A long talk by the verandah door.

Weekly weigh-ins, dieting,
Oh my g-d, a gain of 12 pounds.
Sore throats, red throats
The green lozenges
Freezing off the tongue
Loud noises, clumping horseshoes
Sleepers on soft spring beds
Coloring books and crayons,
pictures on the wall
Surrounded by age-old names.

The quiet calm of the lake
The rustling of leaves
Hornets nests and bee stings
Delicious blueberry pie
A wonderful summer
Nostalgia in ten years
Oh those busy days?!!

"SHALOM CAMP KADIMAH"

Shaul talked me into coming to Camp Kadimah. The first weeks I was very impressed. Now we work out with the kids from Camp Kadimah. We are trying our best to suit everybody to be healthy, and happy. I hope for the best for many years for Camp Kadimah. We should have peace in all the world, to enjoy our lives in health and happiness. My best regards to all the staff at Camp Kadimah.

KITCHEN REPORT

Well, another summer over at Camp Kadimah. We have really enjoyed and had fun working to feed everyone. This has been a really good summer and we have all had fun getting acquainted with all the faces. The time sure goes fast at camp and although we have our complaints, it's people like Irene Emino and Mr. Eisnor who help us be a little happier on the job. Our thanks go out to them, as we feel everyones does. Then there is Rachael, we all enjoyed working with her.

In the years to come we all hope that there is as much happiness and togetherness in Kadimah as there was in '78. Although the camp has been smaller this summer then in past, there was just as much spirit here as if there were 100 more campers.

Good luck to everyone in the future year and we hope that you will all return to Kadimah.

A SMALL BOY'S DREAM

(who becomes a big boy)

As I sit here and write about my camp experiences as a camper and a staff member, a tear flows from my eyes.

I started camp when I was eight years old and it was my first time away from home. Like all campers, their first year, who get homesick and want to go home on Visiting Day, I was no exception. I can remember on Visiting Day, when my parents left, that tears flowed from my eyes, but then came Maccabia, my first year of this competition. And then the last day of camp arrived and I saw people crying about leaving but I couldn't understand why.

The next two years at camp were pretty well the same, always either getting into trouble or having a good time knowing that I was with Jewish people. This was different from my surroundings, as I come from a small town Glace Bay, with a Jewish population of 40 families.

Each year after leaving, always meeting new people from different parts of society.

And through the winter months, a communication was kept with friends through letter writing. Whenever through the year I would hear about Camp Kadimah, there would be a perk of my ears.

The following year I missed camp due to my Bar Mitzvah and this was a big change for me to stay in this little town for a summer. I was used to my routine of going to camp and this was a letdown, not attending camp this summer.

After not going to camp the summer before, I was really looking forward to this next year. I was in Camp Machar - senior camp, and this was the top of the camp, in my eyes. My two years in Machar were my best years as a camper for reasons like, it was my first time I knew what it was about to have a Jewish girlfriend. Machar was a learning experience for me and this was the first time that I cried when camp was over. I looked back to when I was a Junior and was wondering why they were crying, but soon it occurred to me. Living with these people for 6 weeks, they become just like your own family.

The next year came the change for me at camp. I was a nonpaid staff member at 15, turning 16. At camp, this was a big treat for me and the people I lived with and the things I did were a treat within themselves. I went home that summer with my head above the clouds.

In '75, I came back on Sports Staff. This was my first year that I was paid and what a treat to go home with a \$75 check in my pocket, not wanting to spend it all in one place.

By this time, camp was a part of my life and it was with me 12 months of the year, not two.

In '76, '77, I returned as Assistant Landsports Director and a few other odd jobs, like Fire Marshall and Head Security. Both these years, I finally reached it to the top. I was on Head Staff! When I was a Gib and just admired the head staff when they sat at head table... but here I was sitting there. Every time I looked at the Gibs and pictured myself there I wonder to myself, when they look at us, do they wonder the same? Well, I hope they do because I hope for their sake and the Atlantic Jewish Region that there is a Camp Kadimah.

In 1973. I attended Camp Kadimah as Sports Director but before deciding to attend, I kept asking myself if I was too old for this place. I wanted to think this but Camp Kadimah was just in my heart and I couldn't shrug it off like a pain. It was there, and it will be there to stay with me for a long time.

As the camp season comes to an end, I say to myself, is this the last for me? I hope it isn't the last for camp for a long time. This could be my last summer here but for damn well sure, it won't be the last I think about camp.

I hope that every Gib's feelings are filled, the same way mine were.

In my closing, I will remind you of the first paragraph of the camp song and this should speak for Camp Kadimah's future, "As long as we all pull together, Kadimah will grow more and more."

GOOD LUCK, KADIMAH

Dear Gibbies,

Remember July 5th's awkward moments,

And how much we've grown since then.

A summer has passed us by,

If we could only start over again...

But I really wouldn't want to,

After this summer of '78.

'Cause Cabins A, B, C have proved,

That they are really great.

Pillowfights and waterfights,

Hunting for kids and staff.

Nothing meant more to me,

Than guaranteeing your laugh.

Goodnight kisses and bedtime wishes,

Ghost stories for Cabin C.

Cute still were "nude" shows

By the girls in A and B.

There were so many crazy times,

Making friends - it took a while.

But it was worth every moment

Just to see each sunny smile.

I'll miss you guys. Keep '78

near to you & thank for letting

me have fun.

I love you ALL, Sheri

Dear Mom:

Hi! How are you? I think I can manage one more week at this place.

Yesterday at rest period my counsellors made me mop the cabin floor. Last night Susie threw up. I should throw up too but I don't have anything in my tummy. I didn't eat yesterday except for won Mars bar.

The other day at swim instruction my instructor said my swimming was so bad that I should be drowned so he pushed me in the deep without a life jacket. Luckily my counsellor saw.

After she stared at me for ten minutes, she decided she wanted her pay check and pulled me out. Last night we had a camper hunt. I wasn't found yet. I'm hiding under the waterfront cabin beside the septic tank. I'm hungry. Supper was called five minutes ago. See you next week.

MACHAR DAY

Machar day was when my yucky counsellors left camp and three nice Macharniks took over my cabin, for one day. It was great. The three Macharniks were Dena Danker, Lisa Shumman, and someone else. They treated us really nice and I wish that they could do it again. During Machar Day, we had Shirkud, sports and an A.C.F. that was really good. It was a fun game. When Machar Day was over, I was happy to have my yucky counsellors back because I missed them. However, I didn't let them know that.

Sandy Fischel

Maccabia

Maccabia is when you play games. You play games like dodgeball, volleyball, handball, baseball and soccer baseball. There is one more thing that isn't really a game, which is tug of war. Every night of Maccabia there is a "MarchPass". "MarchPass" is when you march and try to do the best marching. You sing your team song and you also sing "Le Shalon Nevracha". Maccabia is very fun. You also do "Shircud and Bama". This year, white team won, red came in second, and blue came in third. All teams did very well, and they all did their hardest. All the teams sit with their own team, and the team has to sweep and clear their area. Each team has to be quiet when the staff put up one of their hands.

SEASONS

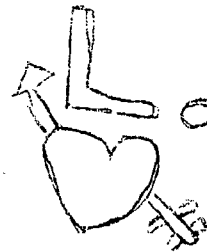

I like the HOTsummer because you can go swimming and
you can have lots of fun like water skiing. But I like the
winter best because you can make snowman and go skiing.
But I really like the spring because it is not too hot out
and not too cold. That's a good reason why I like the
different seasons of the year. I like summer too because I
get to come to camp.

THE CABIN C SUMMER

This year the counsellors of Cabin C, B.J., Mitch and Leslie, thought up many activities to keep their campers amused. The secret cabin handshake, "The real Mc Coys", and John Verretsky's singing solo brought us highest marks on Friday. The counsellors of cabin C also felt that there was just too much time to sleep so we woke up the kids for Hafta'ah and toranot at midnight. During the day, the kids had many exciting A.C.P.'s such as Boardgames created by two Masterminds. At the table, the counsellors fought to have the kids classified as non-spillers sit near them. All in all our kids had a super fine time playing running bases, being tools and driving us insane.

The Gibs had a great time this year, through their own efforts and the hard work of the staff. The programs were great and so were the kids. I feel the kids had a rewarding experience along with a fulfilled summer.

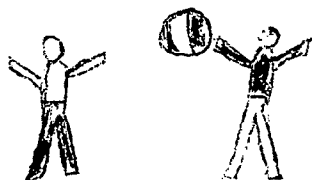

There was a renewal of old friendships and commencing of new ones. Our section deeply appreciates the hard work of a concerned section head Sheri Lecker; thanks Sheri. I hope all the kids will return next year continuing their climb up the Kadimah ladder. See you all in '79.

Good luck Gibs,

Groshim Section Report

With a thousand and one things to say, the one that sums up the summer the best comes from the following quotation,

"Individual commitment to a group effort, that's what makes a team work, a unit work, a city work, a country work, and a nation work."

Thanks to your individual commitments, the summer was proven a success.

So to ~~the~~ staff, "Only the mediocre are ever at their best," and to Adree, Barbara, Andrea, Ro, Barbie, George, Mara, Stephanie, Arlene, Jocelyn, Bari, Steve, Ken, Dan, Joey, Jonathan, Sam, Ian, J.B., Mark, Adam, Horne, Bones, Lou, and Bernie

MACHAR DAY '78

Machar Day '78 was a blast. Counsellors were loose so we didn't make beds, sweep, clean, etc. Meals were actually fun. You could spit watermelon seeds and not get caught. Bedtime was late and they told dirty jokes everywhere. The music selection in the morning creamed the corny old junk we normally get. Our program in the night was alright but not the best.

When the counsellors came back they went nuts because our cabin was a mess. Even Ira came in. Now there's another M-day around the corner. I just can't wait....

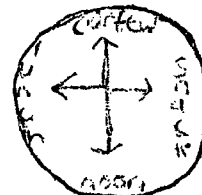

Bernie David

THE KADIMAH LIFE STYLE

It all begins in early morning at about 7:30, when it's wake up. Then 15 minutes later, we have Hafta'ah. A few minutes later it's cabin clean up. Then comes breakfast which we couldn't go without. Mifkad is next in the line up where we sing "O Canada" and the "Judean Pledge". We have a few minutes of free time but then we have peulots for the rest of the morning. Then a well deserved lunch. After lunch is rest period. Chugs are next where you can take various things such as sailing, canoeing, water skiing and much more. Supper is on the way and a hour of free time. Then comes evening program. Then it's curfew and the end of our day.

Joey Schwartz

GOODBYE CAMP KADIMAH 1978

Camp is now coming to an end, and before you know it, you'll be back to your hometown. Then when you get home, you could spend time with your friends, your family, or relatives.

Sometimes at the closing, which is the night of August 15/78, people might miss Camp Kadimah, and might want to stay. Then the next day, you'll be on the bus heading for home.

Camp Kadimah 1978 has been a great year and we, the campers of Camp Kadimah want it to stay that way. It might not, but we'll give it our best, with lots of spirit and ruach.

THAT'S US...

MACHANEH KADIMAH.

YAY CAMP !!!

CAMP KADIMAH

During this year at camp, there were many special things that happened.

RECORD BREAKING DAY

At camp, we have one of many special days called "RECORD BREAKING DAY". During this day there are a lot of events going on, and we try to break those records from the previous years. Some of them are: ice holding, talking contest, kissing contest, cookie eating contest, and more. And that was only one of the many special events.

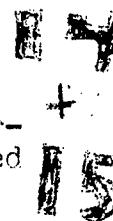

THE SOCIALS

Another one of the special days are the SOCIALS. We have different kinds of socials every Saturday night. One of the socials was "SADIE HAWKINS" night. The way it went was the boys hid and the girls had to catch them. When they caught them, they had to get married, and then the girls had to take the boys to the social. Another of the kinds of the socials was "GREASE" night. We got dressed up like someone from the '50's. It was alot of fun. Everybody enjoyed it.

MACHAR DAY

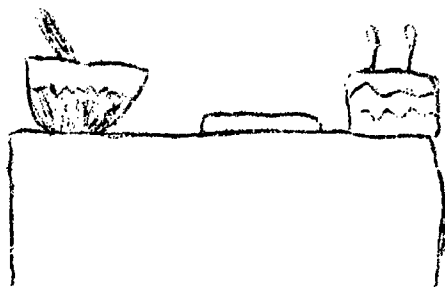

On "MACHAR DAY" all the counsellors leave camp for one day. And the older campers take over, which have the name Macharniks. Their ages are from 14 to 15. The Macharniks keep us busy for the day. At night we are very excited for our counsellors to come back. But, we did have fun.

THE BANQUET

The banquet goes like this. We go with our dates and have supper. After that we dance and then we go outside to burn a sign saying: CAMP KADIMAH '78. Then everybody starts to cry because they don't want to leave their friends that lived with them for six weeks.

Camp is full of fun things, and a little bit of bad. But mostly they are all good things. That way no one gets bad!

THIS YEAR AT CAMP

I thought that this year has been the best so far and I've been here for five years. My counsellors are Danie, Susan, Cindy and Karen. There were eleven girls in my cabin, including me. My cabin is Cabin 9. The summer has gone really fast and you know what they say, time flies when you're having fun. So, I guess that I had a lot of fun this summer. I wish I could stay longer.

Wendy Zive

BASEBALL (A poem)

The camp baseball team is good,
They have no bats of wood,
When they play,
Their score never stays.

CAMP KADIMAH

This year camp is really fun. We have a new director here, called Ira Jacobs. The weather is good. We have some new activities.

This year's Record Breaking Day was really fun. Here are some of the events. Talking contest, Ice holding, Eggwalk, Kissing contest and a few more.

This year's Mactar Day was really fun. The programming was good. We had good Macharniks.

Barabra Friedman

THE RAID THAT WASN'T

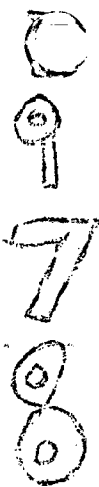

On the night of Sunday, August 6, 1978, the boys of Cabin 32 raided cabins 30 & 31. The raid consisted of toothpaste and corn flakes on the floors and all the bad boards removed. Very quickly, the girls realized who had raided their cabins. We were told by Golda that the raid was done the wrong way, and we were forced to clean up the girl's cabin.

Howie Green

THE SAILING CHUG

The sailing chug is fun. With Bernie Seicher, it's a snap. Teaching you from jibs to rudders. He's a really great instructor. All the people who take the chug are really great. When you sail, you get good feelings because you're challenging the wind. It's fun to tip because it's easy to get it upright again. When it's too windy for sailing, we have lectures and films. We use fly juniors. On visiting day, we gave a display on sailing. Sailing is a great sport.

Joey Schwartz

MACHAR DAY

Machar day, all around was pretty good. Our cabin, Cabin 10, had Adam Paton, Lise Brown, Heather Rinsler and Cheryl Marshall. They were very good. They told dirty jokes and stories which we liked alot.

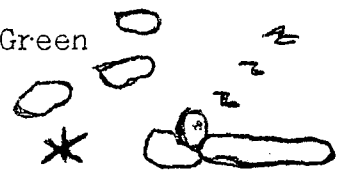

When the counsellors came back the cabin was a mess and we enjoyed making it that way!

Bernie David

MACHAR DAY

I like Machar Day because it's fun having a Macharnik as your counsellor. They make us good programs for the day and the night. I also like Machar Day because I can compare my new Machar counsellors with my old ones. That is why I like MACHAR DAY!!!

Stephanie Green

GOSHRIM OVERNIGHT

The overnight hike was fun. I liked making fires with my counsellor, Seymour. We made a log cabin fire and a tepee fire. It was fun. We also swam in the lake. We made supper over the campfire. Then we went to bed in our sleeping bag. Then, when we got up in the morning and had french toast for breakfast. Thats all I have to say about the overnight.

Jason Budovitch

delicious!

VISITING DAY

tasty!

On Visiting Day, in the morning, I was really excited, I couldn't wait until I saw my mother and father. Then it was time for breakfast. I ate so fast.

At Mifkad, with the raising of the flags, everybody stood still. After Mifkad we all ran to the bridge but we weren't allowed to cross, because they were afraid that people would get run over. Anyway, Mommy came running over the bridge. And it was a happy day.

great food!

Andrea Brown

scrumptious!

VISITING DAY

mom!

Everybody couldn't wait until Visiting Day. Everybody was standing at the foot of the bridge and couldn't wait any longer. They just charged across the bridge and ran to get their parents. Most of the people seemed to be having fun, but some other people were really homesick and wanted to go home. After the parents left everyone was fool and had alot of food. I don't think anyone wanted to see anymore candy.

GREASER SOCIAL

One Saturday night we had a different kind of social. It was called a Greaser Social. Everybody would dress like the 50's. The boys would dress like John Travolta and the girls would dress like Olivia Newton John. They would also play songs from the movie Grease.

Barbara Friedman

RECORD BRACKING DAY

In camp we have something called record bracking day. I did not want to go because I was not in a good mood. I was behind the backstop when I heard them called my wristicker number. I went over to them to show them a number and got a prize.

Kenneth Chernin

cake!

VISITING DAY

Visiting day is the most exciting day of the summer. The cars are lined up way down the road. This year we had a play called Free To Be You and Me. It was a good play. I did not get into it but some of my friends did. My father did not want me to come this year but when he found out that I was getting along fine he was happy. All this happened on Visiting Day.

MACCABEE

In camp we have something called Maccabee. My first year of camp in 1976, I was on blue team. We came in 1st. In '76, I was on white team. We came in 1st. In '77 I was on white, we came in 2nd last. In '78, I was on white team. We came in first.

Kenneth Chernin

BROADCASTING

Broadcasting is fun, if you like to be a Disc Jockey, like Lorne Simon. Lorne is a very responsible and reasonable technician. He is also the best Disc Jockey of the whole camp. In the chug "orning Radio Show", we learn how to be Disc Jockies and know some of the equipment. When I have any free time, I usually help Lorne. Mike Freedman is another good Disc Jockey. Maybe, whenever we get a chance, we might go to a place, where there is just the same equipment, but more. One time, some people did morning shows. I did last year and for Maccabee last year and this year. Broadcasting is very fun. So is Lorne Simon, so is CKBC, your broadcasting station. CKBC really means Camp Kadish Broadcasting Corporation.

Ian Mathanson

ALL ABOUT OUR STAFF

We wouldn't know what to do without our Ezra. He takes care of our camp so well. Next we have Matthew and Howard waterfront director and his assistant. We couldn't have canteen without Lorne or Marty. Belarie, his wife, is a very good artist, and a very good drama teacher. Victor, is our head of hikes. Without them, we wouldn't have these things. Irwin Simon is the head of sports. He is also a great baseball player. The section heads, Sherry, Mike, and Golda are fun to be with. Last, but not least, is Ira. Ira is great and fun.

Joey Schwartz

CABIN 10 CAMPERS OF 78

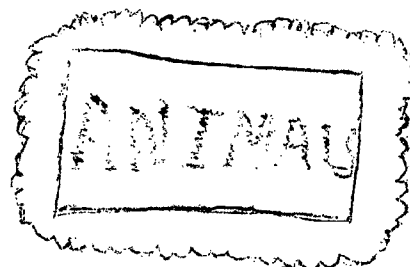

In 1977, cabin 10 campers were called "the animals". They were pretty tough and usually had a messy cabin. Most of these kids(animals) went to Kochot, but 2 stayed in Goshrim. Those 2 are in cabin 10 this year. And there is usually a mess around their beds(there is also a mess around everybody's bed). This year we have the best and cleanest cabin on Shabbot, which is different from last year. We, the campers of cabin 10, 1978, will never match up to the things all of us did in 1978.

MY FIRST YEAR AT CAMP

This is my first year at camp. I have never been to a camp or away from my mother or father for so long or be so far away. I was really scared and lonely, and was homesick for a first few weeks, but then I was O.K. Camp is fun. I like the water activities and everything else. I like my counsellors alot. When they don't scream too much. The kids in my cabin are usually pretty nice. I have some best freinds and some not best friends. I'm not used to not having all the luxuries I do at home. I'm not used to the hard beds and not watching t.v. I'm also not used to getting up early every morning. I have to admit that most of the time I'M happy and I like camp. And that's my story of my first time at camp.

Bari Levine

OUR CABIN

Tune: Beverly Hillbillies

We'll tell ya a story 'bout 15 girls
Who lived in a cabin surrounded by squirrels,
The staff is great and the kids are too
And if you want to live here, we got no room for you.

The staff is made up of Karen, Cindy, Dania & Sue.
Our unit head is Mikey-poo.
The boys are such brats that we don't know what to do.
So we'll have to get rid of them 2 by 2.

Cabin #9 that is, across the bridge, ya all come down now,
ya hear.

CABIN 10 REPORT

Ray Zatzman, Seymour Rafuse, and Jeff Wolman had the misfortune of being the cabin 10 counsellors this year. At this time, they would like to express a few of their grievances. I will now turn the floor over to these three distinguished individuals, who will attempt to explain the trouble they encountered during the summer.

Ray Zatzman - Looking back on the past six weeks, I would honestly have to say that cabin 10 had its share of trouble and troublemakers. The kids were, for the most part, ideal campers and caused a minimal amount of problems. They were kind, unselfish, and thoughtful. The troublemakers of our cabin were my counsellors, Seymour and Jeff. I would attribute most of the trouble to them. They acted like schmoes practically all of the time, and were it not for my excellent work with the kids, the camp year would have been a total failure for my campers. Because of my influence, every boy had a great time. I sincerely hope all of the cabin 10 campers return next year, when I will assume the position of camp director.

Jeff Wolman - In retrospect, from the camper's point of view, I would have to claim this summer a phenomenal success. This can be attributed to the great untiring work and efforts of myself. This "wonder counsellor" programmed constantly, and shared all the trials, tribulations and joyous occasions of the campers. However, what made this summer particularly difficult was the attitude of Seymour and Ray, They slept through Haftaah, they were sloths at the table and they were never around the cabin. Moreover, they were generally obnoxious. Worst of all, they were SLACKERS! If "Hadracha B'dugma" existed in the Goshrim section, the campers could sleep the entire summer! Yet the benevolent attitude of myself pulled cabin 10, out of a conceivable catastrophe this summer.

Seymour Rafuse - Dear Mom & Dad,

I had a great summer!

Love, Seymour

KOCHHOT

Dear Kochot;

Kadimah 78 is now behind us. Six weeks of new experiences learning, and growing as individuals and as a unit.

The summer's success is the result of a great hardworking staff and a fantastic group of kids- the results being strong friendships and warm memories. Thankyou KOCHOT78 for giving me a summer at Kadimah I ll always remember.

Love,
xo Golda

THE TEN COMMANDANTS OF CABIN 33

1. Thou shalt sneak up to the General Store every day.
2. Thou shalt skip Instructional Swim.
3. Thou shalt throw food at every meal.
4. Thou shalt cabin hop every night.
5. Thou shalt raid cabins every night.
6. Thou shalt be late for every meal.
7. Thou shalt chew gum whenever you please.
8. Thou shalt raid a counsellor whenever you please.
9. Thou shalt disrespect counsellors.
10. Thou shalt disobey all waterfront rules.

ON OUR SO-CALLED HITYASHVUT

We were woken up at 6:30 and told to assemble in front of Cabin 33. When we got outside, Golda told us we had an hour to be out of camp and on our way to our Hityashvut site which was a seven mile walk.

We finally arrived at the crash boat which would take us to the Island. It was still raining, so we went under the shelter. The counsellors, then, had to face the hard decision of deciding whether we would stay or not. They came back with the heartbreaking news that we'd have to go back. Ira and Steve Sable came to pick us up and take us back to camp. We got back to camp soaking wet and that was our so-called Hityashvut.

Michael Pink

HOW I HEARD ABOUT CAMP KADIMAH

You all know Beth Medjuck, well she is my cousin. She came to Israel to visit us, meaning my family and I; she talked about camp and then she said to me, "Would you come to Camp Kadimah this year?" I said yes, and here I am. My Mom was here in camp when she was in Canada, because she used to be a Canadian, so I decided to come and see my mother's country. Now I'm here and I like it very much and I have friends here, and it's very nice. Life in camp is very different from camp in Israel. Everything is different and you have to get used to it. Well, I got used to it and I like it very much. If you ever come to Israel, please come and visit me and you will have a good time. Hope to see you ...

OUR ATTEMPT TO GO ON HITYASHFOT

Our unit head woke us up early. She said we had to go out in front of Cabin 33 so we all went to Cabin 33 and Victor Fineberg, who is head of Tzifiut, started telling us what to bring and he told us how to make a horseshoe and how to tie it tight with string.

Then he told us we had 20 minutes to pack and get dressed. Then, we all went to the dining hall for breakfast and after that Victor announced the teams and captains. My captains were Heidi Brown, and Ben Schlew. So, we all started walking. We walked 7 miles in the rain; then when we got to camp at the camp site, they said that it was too wet to stay. So, the camp truck came to pick us up and drive us home to camp. So, we walked to our cabins and everybody was upset, that we had walked all that way for nothing.

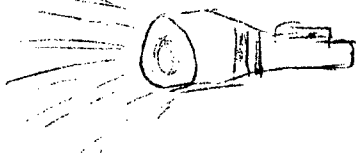

The counsellors said that we would be going on a one day hike, overnight, and we did, and it was a lot of fun. We went to Indian Falls; it was simply beautiful there, so all in all, our overnight turned out to be a success.

Heidi Fischel

NIGHT MANEUVERS

One of our evening programs that we had in Kochot was night maneuvers. The counsellors told us to put on very heavy clothing, because we'd be off of camp grounds and we would get very cold. That's all they told us. We walked up to the bonfire site along with Mitchell Beck (Ezra's grandson) and Lorne Simon. Lorne lined all the campers in one straight line; girl, boy, girl, boy. He gave each of us a number, 1, 2, 3, etc. I was number 1. We walked out of camp in a straight line, silently. Whenever "they" were after us, (cars on the road, which passed us), Lorne or Mitchell would tell us to hit the dirt. Every once in a while, we held a number call to make sure that there was nobody lost. Number 1 whispered to number 2, then number 2 whispered to number 3, and so on. There were 32 of us. When the final number was said, 32 would say his number out loud. Lorne would say things like "Duck, I see a plane of our enemies." Then we got to the woods. We climbed over fences and fallen logs. It was dark. We only had three flashlights. All of a sudden, Ronnie and Richard and a few other male Kochot staff jumped out of the bushes and terrorized us. We jumped all over each other. Then we had another number call; numbers 31 and 32 were missing. We were terrified. We were getting scratched by branches, and tripping over rocks and logs, and I had to lead. The whole line held hands. Finally, we went around in a complete circle. As soon as we were on the road again, we ran all the way back to camp. We ran into our cabins and had a good night's sleep. Some people didn't exactly enjoy the night's program, but I loved it.

THE ART OF CABIN HOPPING

Cabin hopping is an art. This art is practiced by many campers of all ages and sexes. Cabin hopping is practiced by those campers who are looking for mischief. For cabin hopping you must be very smart and very coordinated. I will give you some advice for cabin hopping, and please use it wisely. First, you must wait at least fifteen minutes after the counselors leave, then check all the windows to see if the coast is clear. You must wear a dark sweater and pair of slippers, and stuff your bed if so desired. After that you must check all the windows again, just to be sure. Then you are ready to leave. First someone must open the door, and in single file you go on to the porch. Then you go under the railing and make your way to another cabin. While you are going to the other cabin you must crawl. Once you get near the other cabin you get up slowly and run inside, then of course you must whisper. If you stay in the other cabin for more than a few minutes you are taking big chances. After staying a few minutes you must go back to your cabin the same way you came. This is just about all the advice I can give you, but the most important thing of all is... The idea of cabin hopping is going from cabin to cabin without getting caught, and when you go you should go with your whole cabin. When you do cabin hopping and get caught remember the old saying "If at first you don't succeed, try and try again".

Well this concludes my story. So good luck, and see you tonight at 10.30

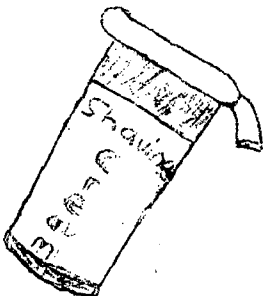

Your fellow cabin hopper,
Lisa Hans

RAIDS

Raids are fun at first but after a while they get boring. There are all kinds of raids; water, pillow, and shaving cream, but usually someone gets hurt. For example someone breaks their pillow, and the feather or foam goes all over the place. Shaving cream gets in people's hair, and in a water raid everyone gets wet. The moral of this article is be careful on a raid.

CAMP IN GENERAL

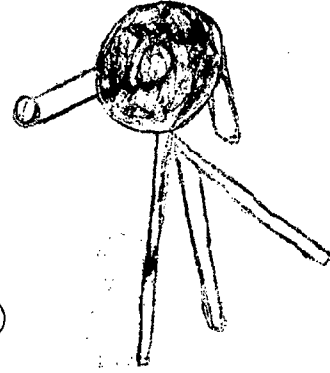

Camp this year is fun,
it seems like it's just begun,
although we've been here,
for a fraction of a year,
I think it's number one.

OVERNIGHT

For our overnight we went to Indian Falls. We unpacked all our belongings then went for a swim. The swim was great after a long, hot walk. We had time to explore the area, and there was all kinds of neat things near the Falls. It was all kinds of fun. The next day we were up really early, and got ready for the long walk back to Camp. The Hike was all kinds of fun.

Eric Altman

OUR SECTION HEAD

We have a section head that is the best in camp. She really understands us and feels for us sometimes. Her name is Golda Milo, and she's loveable. One night she raided us just for fun, but of course she was very careful not to ruin a thing. Golda is very kind and I love her.

P.S. I hope you have a good year

Joel Friedman

CANOEING

I took canoeing as one of my hobbies this summer. Howard Conter taught us. First of all, we learnt the parts of the canoe, and the paddle. After that we were taught six strokes, the bow stroke, bow sweep, reverse bow sweep, jay stroke, draw, and push away. My favorite part was when we got to tip the canoes, while wearing life jackets to learn canoe rescues.

Jonathan Boniuk

Dear Kochotniks,

We would like to personally thank you for showing us what special people you really are. We'll never forget any of you because each and every one of you is very special in your own way! We hope you'll never forget all the great times we shared, like the talent show, the hikes (even the wet ones), the water fights and all the rest too numerous to mention. We also hope that you'll be able to laugh about the rocky times; like the raids and the arguments and the "crappy programs". Never forget who and what you are and always go after what you want as long as you don't hurt the next guy!

Be strong and don't forget, "A winner never quits and a quitter never wins." You're all winners.....

Love,
Your Staff

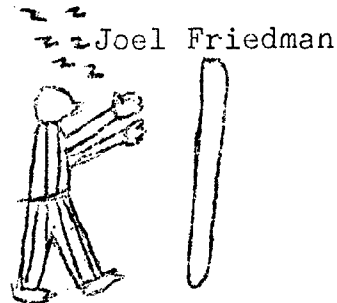

A Night in Cabin 33

It all starts when the lights are turned out and the counsellors leave. The campers of 33 go to sleep. About 3:00 A.M. one camper wakes up to find an assortment of acts going on. There are 10 campers and each one has a different act. One makes clicking noises with his mouth. Another one snores so loud that the wind from the snore can blow a whistle. Third camper continuously turns and tosses over in his bed. Fourth camper bangs his head on his bed all night long. The fifth camper sleeps in his sleeping bag all summer long. The sixth camper sleep walks at night. The seventh camper talks in his sleep. The eighth camper sleeps half way out of his bed. The ninth camper sleeps with his eye open gazing at the ceiling. The tenth and final camper sleeps in a perverted way.

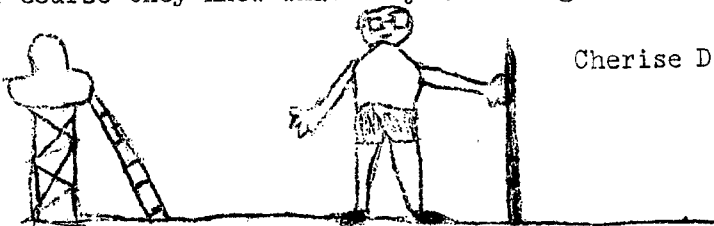

THE WATERFRONT

The water is a great place to have a lot of fun; but it is also a very dangerous place. Rules and regulations must be kept, and some are - No pushing on the docks, no running, and sticking with your Buddy. Of course it's true that you can have a lot of fun on the waterfront, but if one does not obey the rules harm may result.

This summer the people who are running the waterfront are: Matthew Burnstein and Howard Conter, who are both very good instructors, and of course they know what they are doing.

Message to Machar

"A man should so live that at the end of each day he may repeat 'I have not wasted my day'."

We feel this quote is relevant for each and every one of you in terms of your days spent here at Machar. We hope that you found the program this summer sufficiently diversified to challenge and meet the needs of all of you. Your talents and individuality especially shone through during Maccabiah, Hityashvut and Machar days. Looking at our past experiences, we feel Hityashvut in particular was the most successful either of us has ever seen. The summer was continually interrupted by special programs, while although these programs are an integral part of Machar, they unfortunately resulted in leaving less time available for the daily thematic programs we had planned. Nevertheless we hope that you did learn from the programming - as a group and as individuals, about yourselves and about others.

We sincerely thank all of you for this summer. With all our shouting and pushing we never told you that your cooperation and enthusiasm really made things a lot easier for us and allowed us to truly enjoy Machar '78. During the summer we encountered a couple of depressing times but you as a chevra were strong enough to handle the situation in a mature manner. We pulled through and continued to have a successful summer - because of you.

Machar is not solely a formal learning experience. It is a time to grow as a unit, chanichim and madrichim. While Camp Machar '78 has lasted for only six weeks of a lifetime, the memories and friendships formed in this short time will always remain.

In closing we wish to say - L.T. Guys ; B'hatzlacha!

All our love,

Beth & Marci

Flip, Flang, Bang--

One more day at Camp Machar, ten thousand questions to forget.

But can you imagine what your summer would of been like without "The Bird" and "Mr. Fine Arts."

Listen Guys, who would of taught you the joys of Maharishi Yoga, to reach higher states of consciousness. Who would of taught you the art of Sarcasm, right under his very own wing. That's right mardifs.

So with the abundance of "worthwhile" knowledge we have laid in your laps, we wish you all the luck in the world and hope to see you again somewhere over that "Great Rainbow".

Let's go Macharniks Again!!

Love, Howie & Richard

Dear Macharniks,

For the past week, cries of "when's Hityashvut?" or feeble attempts to guess the date have been ringing in our ears. The seed of hityashvut finally blossomed at 6:00 am this morning. For the next four days you will grow as two communities, separate and yet together.

The theme of this Hityashvut is "One Generation After." It is left to each team to interpret in their own way the Community, looking at yesterday, today, and tomorrow.

The end result of any Hityashvut reflects the organization and cooperation of the group. Remember, Hityashvut is a time to grow. Have fun, but be careful.

Chazak V'leamatz!

Bird, Marci, Howie, and Beth.

DESCENDANTS: CAPTAINS' MESSAGE

As captains of the Descendants of '78, we'd like to thank all of our team members for their enthusiastic participation and ruach. Even though we were divided into two teams, Machar still remained a strong chevra throughout the four days.

It was a great experience for us as captains and it gave us a new perspective on how to work as a unit.

Thank you once again for making this hityashvut one of the best ever.

Love, your captains:
Lana & Martin

DESCENDANTS SONG

Each new generation lacks
the feeling of their ageless past.
If they can't regain our beliefs,
our heritage will fade away.
Hey, descendants, what are we gonna do?
Our descendants will need a chance or two.

Chorus:

Go, go, descendants, we're really great,
Hang on descendants of '78.
Shana descendants, we're out on top,
we've got the ruach that really won't stop.

The years and people have all changed,
they're values and our values aren't the same.
If they would find a path to take,
Our religion would not be at stake.
Hey, descendants, what are we gonna do?
Our descendants will need a chance or two.

Chorus:

Go, go, descendants with banners up high,
Hang on descendants, we'll never die.
Shana descendants, we're having fun,
With all our team work, we'll get things done.

Tune:

Joseph in Prison

DESCENDANTS CHEER

Sunday, Monday, hityashvut,
Tuesday, Wednesday, hityashvut,
Pack our bags, fold our tents,
Then we're ready to go,
Boo hoo hoo hoo
Our days are filled with fun,
Participating in hityashvut,
Our sportsmanship will see us through,
Cause there's so much that we have to do.

YALDA HAYAM: CAPTAIN'S MESSAGE

Dear Yalda Hayam,

We, your captains of Hityashvut would like to thank you for the hard work and co-operation you gave to us. Although we were separated into two teams, we were still striving for chevra. We know we've succeeded. We hope Hityashvut '78 will be remembered by all. We know it will always be with us.

Luv forever,
your captains:
Andrea & Mike

YALDA HAYAM'S SONG

All this time we've waited for Hityashvut to come,
And now we find we're separate but still one.
Children of today, a generation after last,
We're leaders of the future, followers of the past.

Chorus: Yalda Hayam will always be together,
And we will strive to keep these memories of today forever,
When we leave this fantasy, we will have learned a lot.
Cause the things we do on Hityashvut,
Will always be with us.

So come and follow us where man has shown the way,
To a place we all have been before and we all would like
to stay,
The love between our brothers, Yalda Hayam will stand,
And in the end we'll look back and see the future gone.

Chorus: Repeat
Tune: The Good-bye Girl

HITYASHVUT

This year's Hityashvut was a beast,
I don't know if it was in the past.
We all became very close,
And that was something to toast.
We are always together.
And that will be forever.

Machar will remain as one,
Even when the year is done.

Lisa Goldberg

HITASHVUT

On the night of July 22, shortly after dinner, all of Machar was called for a meeting in front of Cabin A. We were all sure why this meeting was called. It was Hityashvut - Ugh!

The lack of enthusiasm and excitement to go was very evident, as people slowly cried their way back to their cabins. We were told that we had 30 minutes to pack for our 4 day hike. At 8:30 we filed up at the Machar gate and the teams were read off. As we trotted out of the gate with our horseshoes on our necks, there were still hopes for Arthur Kuntz.

Sure enough, when we reached Kadinah gate, we were told that we had to go back because a boy named Arthur Kuntz was left behind. We were all relieved, but in the back of our minds, we knew that we'd be leaving early the next day. We were right- 6:30 in the morning, we went for breakfast and then began our 9 mile hike. Thanks to our loving Madrichim, who felt sorry for us, our packs went in the van. We thought that the next four days would be "living hell" (exaggerated a little) but when the fourth day rolled around, we realized how much of a good time we had really had.

Thanx to everyone who planned our Hityashvut, we all had a great time!

Andrea Lis & Beth Habelow

P.S. Sorry to all you suckers who got rained out.

HITYASHVUT

Hityashvut '78 was a blast. We as Machar became a closer unit, even though we were divided into 2 teams. I think that each team worked really hard to make this Hityashvut a success. The captains made sure that everyone participated and not just one person took it all over. It didn't matter who won because everyone had a really good time, I know, I did and I hope Hityashvut of '79 will be just as great.

Cheryl Marshall

EXPERIENCES ON HITYASHVUT

Hityashvut is a great experience for all. Getting closer to all your friends and getting to know people. You get closer by living with and eating with same people for four days. Sitting around a campfire and singing songs and sipping hot chocolate also adds to the fun. The before you know it it's time to take down the tents, pack our bags and walk back to swamp.

Ryan Jacobson

MACHAR DAY

During Machar Day, the Macharniks exchange places with the regular staff. We take care of a cabin in the section of our choice. We exercise all the duties of a councillor with seriousness. The people who do not have a cabin, lead a shug or peula for the campers. For example a person may have bama(drama), which they have to organize properly a few nights before hand. At the end of the day all of Machar is exhausted from the first day of responsibilities of caring for the kids and planning ACP's and evening programs. A couple of days later we have evaluations on how we did during Machar Day. Although we receive criticism, it will help us become good councillors in the years to come.

Daniel Hoffman

MACHAR DAY

The first Machar Day went well and the kids participated in every activity. The Giborim enjoyed us as councillors and said they couldn't wait until the next Machar Day. The next Machar Day I only hope is as successful as the first one.

Lori Silverman

MACHAR 78

Our section this year was really terrific. Everybody was close so we made lots of friends, and had lots of fun. Even though there were only eight boys and the socials stunk alot of girls still had fun either hustling some of the Machar boys or the male staff. Some of us even resorted to Koenoitniks. Good luck to next years Macharniks.

Sheri Gordon

MY FIRST YEAR

This year is my first year in Camp Machar and I'd like to say that it is fantastic. We don't have councillors to nag us all day long so we can do the things we want to do. One other thing is that I happen to live in the "Hotel" and you meet people alot easier than when you are in seperate cabins, and don't see everyone all the time. Machar kids also get special privileges like Machar Day off, and a chance to take over Kadimah on Machar Day. I think I got the point across; Machar's fantastic.

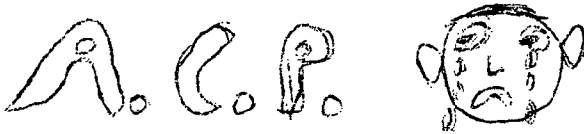

Dena Dankner

MACHAR DAY

Machar day is a day filled with both anxiety and anticipation, well at least your first Machar day is. After the first time it gets easier to cope with what you might have thought of as impossible.

Machar day is when Kadimah gives it's staff a day off, and we take over. Each of us is assigned to a cabin and to lead activities. Everyone of us contributes to either an evening program or an A.C.P. (a thematic program done during the day).

Each summer there are two Machar days. Two chances to prove we know what we are doing. By the second Machar day, we are a bit more wiser and conditioned to what is required of us. These days give us insight into what it takes to be a councillor, and when all summed up, they turn out to be very valuable lessons in leadership, and how to deal with our faults in the area concerned.

Lana Floman

This year Machar became a very close and strong chevra very early in the summer. We might not have associated with Kadimah all that much but we soon realized it was only to make us get to know each other, both as individuals and as a chevra. Everything we did pointed to the fact that we were a separate camp, with more indepth programs, different and sometimes irregular schedules.

Machar also managed to be late for most activities and meals, but we all became and stayed really close the whole summer and hopefully for the coming year.

Rachel Sadofsky

On the night of July 30, Maccabia of 1978 began. Being chosen as two of the six captains, we came to realize that the coming week would be the most strenuous week, as well as joyjul week of the summer. When our team first met we could tell that everyone had a strong feeling of unity and spirit which makes for a successful team.

This year our team (white) came out of Maccabia in first place, and we feel that it is because all team members co-operated, participated, and most of all had a great time.

We would like to thank our whole team for being so fantastic, and especially our co-captains; Marla Goodman and B.J. Chernin for doing the best job that anyone could ever expect.

Love Always....and remember our Words of Tradition.

Lisa brown & Mike Meltzer

-Friday Nights

This year, we had a new director, who ran things differently from previous years. One thing he changed, which I in particular, liked, was Friday nights. Next to the socials on Saturday nights, it was the only time the entire camp, Kadimah-Machar, got together. What usually happened, is that people from each section with talents and people from the different chugs and peulot put together different displays to show the rest of the camp. Of course, all the acts were usually finished by 8:30 (gibby curfew). After that Ira (the director) and Marty Zatzman, usually played the guitar and we sang.

I feel this was a really good summer and the Friday nights helped out by letting all of Camp Machar get to know Camp Kadimah.

*Machar's Talent Show -Heather Rinzler

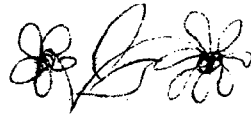

On the 27th of July, Thursday night, Machar had a talent show. It was held in the Mel-Yad and it started at 8:30 p.m. It was quite a big success.

Rhona Morris and Melanie Glick did an imitation of two Gibbies on the toilet, with the title song of "ump-plop-plop".

Dena Dankner and Andrea Chernin sang "Let me be there in the morning" while Cheryl Blumenthal played the ukulele. Rachel Sadofsky recited "Hey diddle-diddle" while Marla Jacobson hung moons.

Others sang and some played the piano. Then the evening ended in a banana split party, donated by our madrichim.

Camp Machar

This year is my first summer in Camp Machar and it's just fabulous. There are 3 cabins, 16, the hotel; which has 18 girls in it, 13, which has 10 girls in it, and the barn, which has 8 guys in it. We don't have counselors in our cabins, so we have a lot more freedom, which is great. But we do have 4 madrichim, who are really great people. The only thing wrong this year at camp, was that it went too fast, and that the food was disgusting, but from that camp was great. I haven't been at camp since '74 and I have made a lot of new friends, which is one of the main ideas for this camp and I hope to keep in touch with them. Also, our V'ad Chevra was excellent this year, and did a lot to improve things. Our Machar Day was a lot of fun, especially our Machar Day off. We had a ball. Maccabia was a lot of fun. During the days of Maccabia, our section was split up, but during evening, we were one section again. Camp Machar is a lot different from Kadimah. (con't)

We also have alot more privileges than Kadimah, which is good. Also the staff at camp this year are really nice. Ira and Suzanne are just fabulous. I hope to maybe come back to camp next year if camp is still open, which I hope it will be. Also, we are doing a production this year, but only Machar. It's called "Joseph and His Amazing Colored Coat." It's alot of fun working on it. It should be a big smash hit. Also for one of our evening programs this year we had a talent show. It was really good and alot of fun. The chugs are good this year too. On Visiting Day there were alot of displays put on from the chugim. I was in the sailing display with Iris. We had a ball. Well, that's all I have to say about camp. So good-bye for now.

Sheryl Blumenthal.

MACHAR

Machar this year was really close,
even though Cabin 16 occasionally had a mouse,
We had some good times and some bad,
Techies came in and out just like a fad.

Marla Jacobson & Rachel Sadofsky

MACCABIA

This year Maccabia started on Sunday night after visiting day. Maccabia means the color war. There were three teams this year; white, red and blue. For five days everyone worked together as a team. It was a great chance to show everyone your talents and to make new friends. Even though it was very competitive, and cabins were split during the five days, at night we all became a section again. Maccabia was the best part of the summer, and the more you contributed to your team, the more fun you got out of it. Participation and cooperation were the two main parts of Maccabia. I wish that all the teams in the years to come have good luck. Our theme this year was the "Roots to the Future". The team names were : White - Words of Tradition, Red- Bridge of Inspiration, and Blue- People with Dreams.

Andrea L. Chernin

MACHAR DAY '78

6:00 in the morning. Machar prepared themselves for taking over the camp for the day. Each Macharnic was put into a cabin, and also put in charge of one of the daily activities. Also, an A.C.P. and an evening programme were planned. The second Machar Day, unlike the first, means I must choose between being in charge of a cabin activity or counselling. I just hope that the second Machar Day will be as successful as the first.

Lisa Shulman

MACHAR 78

This year, my first year as a Macharnik was a fantastic experience for me which I will never forget. For the past six weeks we lived together as a chevra. Through thick and thin we remained together as one. During the past summer I learned much more about myself and I learned to get along and work much better with other people. The great experience is only second to none.

The programs of Machar this year were exceptional. I enjoyed most of them, as they provided a mixture of both seriousness and fun.

I hope in summers to come, Camp Machar will remain as a great chevra, and a source of inspiration to all.

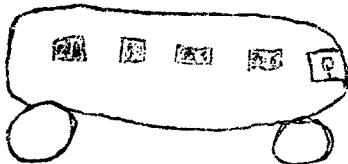

"You and me and machaneh ^{Martin Zelikovitz} machar".....
MACHAR 78

As campers of Machar 78 we feel we all share something-the everlasting memories of this past summer. We have all had our ups and downs but the good times have definitely surpassed the bad.

For the past six weeks we have lived as one, in our own "community", and no matter how low our morals got, by helping each other we once again regained our spirits.

As the summer draws to an end, we feel that the strong friendships and love we have experienced this year will always be a part of "United we stand, divided we fall".

MACHAR DAY OFF

This was the day we had all been waiting for! Was it worth the while? Definitely!

On Monday, August 7, at 9:30 A.M. we left from camp to Rizzers Beach, once there, we fooled around in the Atlantic Ocean. We relaxed on the white sand, and there was no definite lunch time: you ate from the moment you stepped off the bus till it was time to leave. Afterwards, we all headed to Wolfville, where we picked a restaurant. We ate to our hearts content. If you still had room left, you'd go to the Dairy Queen, and order a banana split or some other thing around that line. At 7:30 we went back to the bus where we were driven to see the play South Pacific. There was only good thing you can say about it, was the intermission, where you either bought pop, junk food, or you decided to have a second supper and you bought Kentucky Fried Chicken. At 11:00, when the play was over, we had the idea of going to the Dairy Queen again, where we bought one of the ice-cream specials. Machar Day off of '78 was a great success and a day to remember.

MACHAR AS A CHEVRA

Although this is my first year at Camp Kadimah (Machar), I feel that I have been here, years and years before.

During the first week of camp, I could see that the friends that I was making weren't just summer friends, but friends with whom I would keep in touch, during the year and perhaps the rest of my life.

Machar is never divided into cabins, other than at night. During the day, Machar is one. Laughing ... crying ... dreamin' ... feelin' ... I'll never forget Machar!

Joel Rinzler

FRIENDS

Friends are people who care,
Friends are people who you can trust,
Friends are people who like to be with,
Friends are people who share,
Friends are people you can cry with,
Friends are people who last.

Laurie Bogante & Rhona Morris

Therefore, friends are friends and friends are Machar.

MACHAR

Machar - a unit of people, living, laughing, and crying together.

Sharing memories happy and sad, good and bad.

Six weeks of our life - spent here though in time it seems shorter and in memories longer.

Six weeks in a glass window - our secret thoughts becoming known to others.

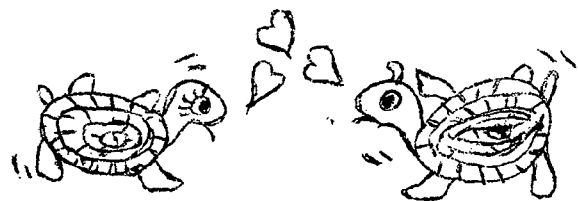

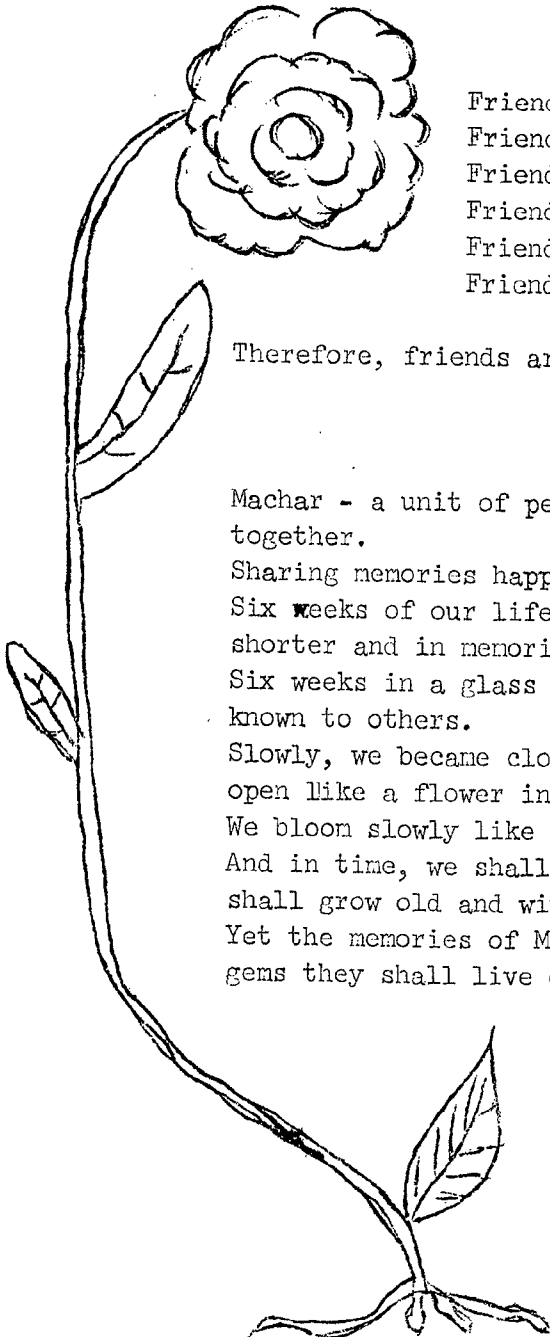

Slowly, we became closer as the inner chambers of our hearts open like a flower in bloom.

We bloom slowly like a rose taking time to enjoy every second.

And in time, we shall open completely and like a flower we shall grow old and wither.

Yet the memories of Machar '78 will never die as like precious gems they shall live on forever!

CAMP MACHAR

Camp Kadimah is divided into two camps: Camp Kadimah and Camp Machar. Camp Machar is the oldest section of the camps, consisting of 14 and 15 year olds. Camp Machar has many advantages over Kadimah. We have a later bed time, and do not have as many restrictions as Kadimah.

Machar is a Hebrew word meaning tomorrow. This means that our goal is tomorrow. The main idea of Machar is the chevra (spirit) that binds us. This chevra brings us all together as one.

There are four madrichim (sounsellors) in Machar, but they do not live in our cabins. This year in Machar there are three cabins: 2 girls, one boys. There are 37 people in Machar: 29 girls and 8 guys.

Machar has been around for 10 years and will hopefully be around for many more years.

Joel Rinzler

RAD HAYAM

Every night before camp Machar goes to sleep we all get in a circle and sing a couple of songs and joke around and generally have a good time. All this brings us to reach our final goal building our chevra. Rad Hayom is just one of the many things that makes our chevra and unit.

Looking at people, at places, the deep roots of Israel, Judaism, Zionism through creation, revelation, expulsion and redemption branch out to a new future. You goal as a team in MACCABIA '78, ROOTS TO THE FUTURE IS to develop your theme in a de'nate route to the future through the sturdy tree of our lives as Jews.

Four main historical experiences repeated in history: creation, revelation, expulsion and redemption.

- Creation: The beginnings of history, the beginnings of possible existence.
- Revelation: Occurs by the study of the torah, giving purpose and direction to life.
- Expulsion: Loss of control over Jewish fate, the result of not following revelation.
- Redemption: Coming of the messiah - time of harmony, fulfillment of Creation and Revelation and end to Expulsion.

Dear Red Team of '78,

Maccabiah is now over and our Bridge of Inspiration has stood tall and strong. Hopefully, the memories of this year's Maccabiah will remain with you for a very long time. We know that we shall long remember the thrill. We are proud of you for the way you acted in victory and in defeat. Everyone tried his hardest and that was the most important thing. The theme of this year's Maccabiah, "Roots to the Future" was also a very important part of not just Maccabiah, but our lives as Jews. We must all think of our past roots and plan our future routes to ensure it will be a happy one. Remember, the future can be what you want it to be.

With love from your captains,
Ien Lutzman
Karen Abramsky
Adam Paton
Amy Newman

RED TEAM'S MARCHING SONG

Out of the past; here at last
To build the bridge of inspiration
The road's been long
But we are strong
Geshet Machshava,
Now's the time,
Lend a hand
Cause our future is near,
Let us show you the way,
We're movin on...

2) A new creation
A Jewish Nation
The sun is rising, the bridge must stand
We all must cross, no one is lost
We've built the bridge of inspiration
We've won the fight

Tune: Free To Be You And Me

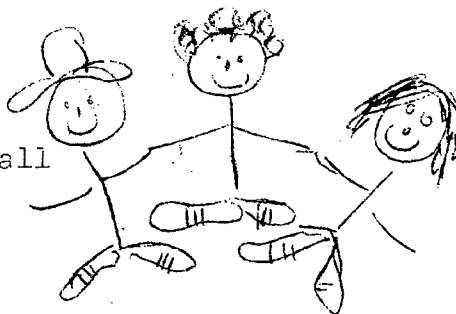

RED TEAM DINING HALL SONG

We are a chevra
Working together
Maccabiah's 5 days
We'll all try our best
Good sportsmanship and lots of zest.

Bridge of Inspiration
We are red team
Running and singing we'll all have a ball
If we stand as one
We'll never ever fall

Because...
We're strong and we're happy
We all have one goal
We're number one and
We've got it all
Maccabiah 's 5 days
We'll all try our best
Good sportsmanship, ruach and lots of zest.

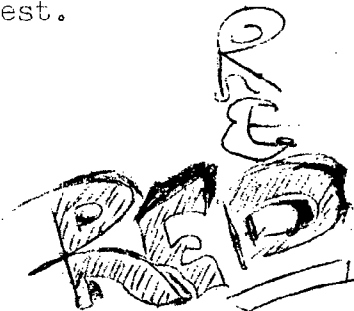

Tune: Parents are People

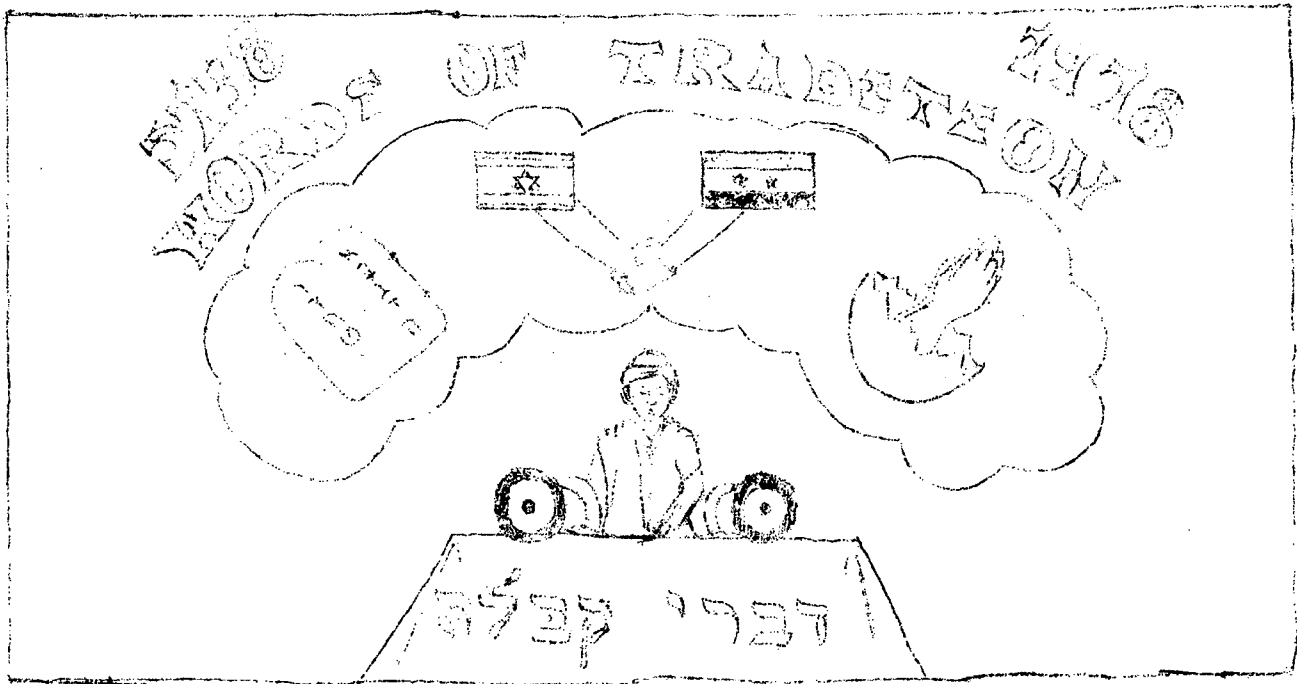

CHEER

Come look at red team
We are the best
yes yes yes yes
We've got the ruach and the zest
We're the team that's gonna win this year's Maccabiah

CAPTAIN'S REPORT:
WHITE TEAM: 1978

We, the captains of white team '78, Devra Kabalah, feel that Maccabia this year has been a great success; our name transacted as Words of Tradition. It symbolizes the rate we have followed in our past and the rate we will travel in the future. By following traditions and learning from our past we can obtain a better view of the future, and eventually reach our homeland and remain there to stay.

We have worked very hard as individuals, displaying our talents, as well as together as a unit, to produce a winning team. With more talent than ever before, we would like to thank every member of our team personally for their effort during the week of Maccabia 1978.

MAZEL TOV & GOOD LUCK IN THE FUTURE,
WITH LOVE FROM YOUR CAPTAINS:

B.J. Chernin
Mike Meltzer
Lisa Brown
Marla Goodman

WHITE TEAM
DINING HALL SONG

MARLA

Fighting for the future,
Learning from our past.
Following traditions,
so that we will last.
**** Marla, B.J., Lisa, Michael,
will lead us with their kuach,
5 days this week.
5 days this week, Maccabia is present,
5 days this week, and when it's done, we'll all be one.
Ooh, white team is movin',
Try to slow us down.
Red team and blue team,
follow us around.

MARCHING SONG

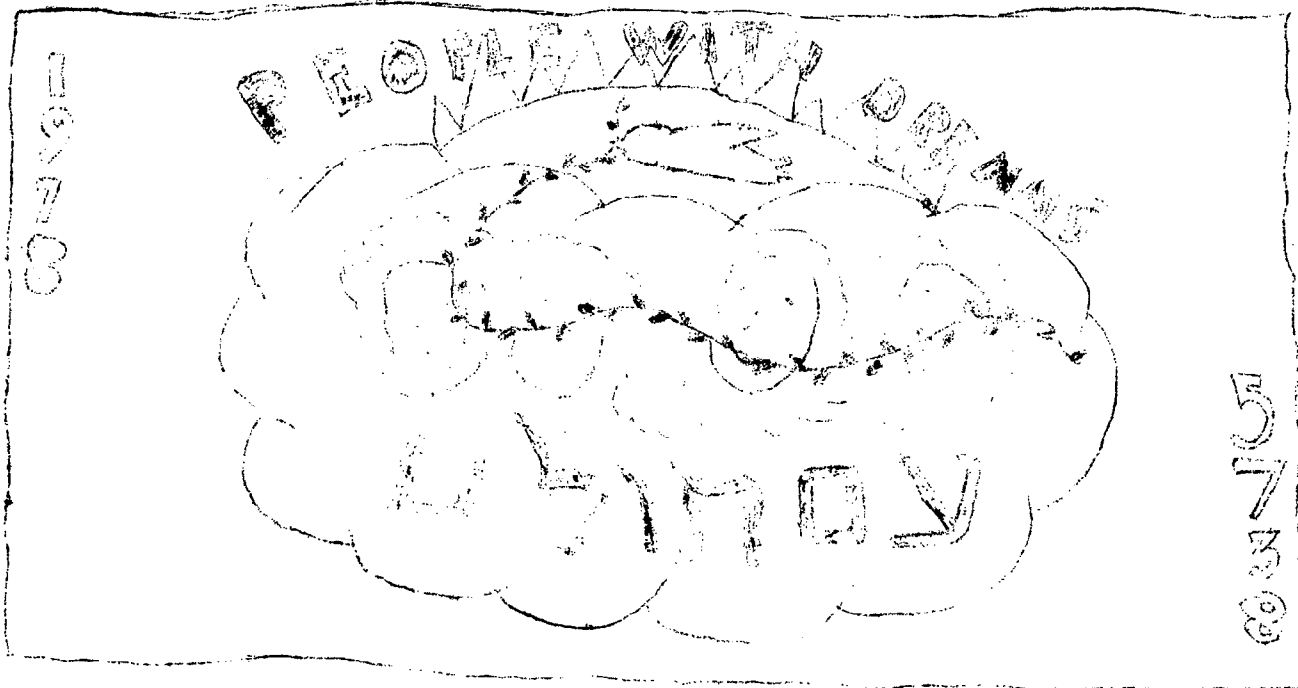

DA DA DA
Words of tradition, Devrai Kabala,
Thyy will lead us on our way,
From our past, the words, we'll find our future,
We will never stray.
Yeah Lanu Ruach,
You will hear us cry,
As we try to take a hold,
From our roots we know we've learned our lesson,
Israel will grow old.
Cause,
Words of Tradition, Devrai Kabala,
Are the only words we knew
From our past, we'll find our future,
Yisrael will grow.
DA DA DA WHITE

CHEER: (TUNE: SANDRA DEE)

Look at us, we're white team,
Always, always on the bean,
We won't go to bed, 'till we're tired and dead,
We can't, we're white team.

Dear Blue Team:

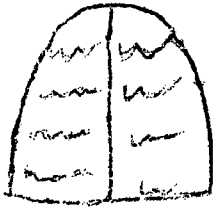

Maccabia is just a memory now, but what a memory! We couldn't have had a better team to work with. An Cholen, People With Dreams, our name couldn't have been closer to the truth for our team. We all had dreams during the week of Maccabia and we will continue to have dreams as time goes on.

More than anything else, Maccabia is a time for everyone to enjoy themselves. In this respect, Maccabia was a tremendous success, because, we had a fantastic time, and to us, that's all that counts. Good luck in the future, and don't ever stop dreaming.

With love from your captains:

Shelly,
Hughie,
Shari,
Ronnie.

BLUE TEAM
DINING HALL SONG

Down in the desert, upon Mt. Sinai,
The ten commandments were received by all the Israelis,
It was the path we'd have to take for the Jewish people's sake.
We sent through troubles and lots of heartaches,
But that was thirty years ago before we ever had a land.
Now it's Maccabia,
Here at Camp Kadinah,
We have power, we have strength, listen to our ROAR!

CHORUS:

We are the blue team,
with lots of ruach,
this is the team to beat. this year,
there's no one that we fear.

We are the blue team with lots of ruach,
together we're fighting, we're always united,
we're the blue team An Cholame.

Tune: Copa Cabana

MARCHING SONG

The Jewish people came about year.
It all began with Abraham.

As our numbers began to grow and grow,
Religion spread throughout the land.

CHORUS:

Anachnu an cholem
Haleecha Kadinah
AANACHNU AM CHOLEM

Soon we left Pharaoh's land, following the clouds and fire,
12 tribes formed our band, never once did we tire.

CHORUS:

Rome tried to get us down, Spain joined in too,
Crusaders tried to do their worst, but Hitler was the one who
really threw it to the Jews.

In 1948, we got our state, the dream had finally come alive,
Never again people to scare, we knew we would now survive.

CHORUS:

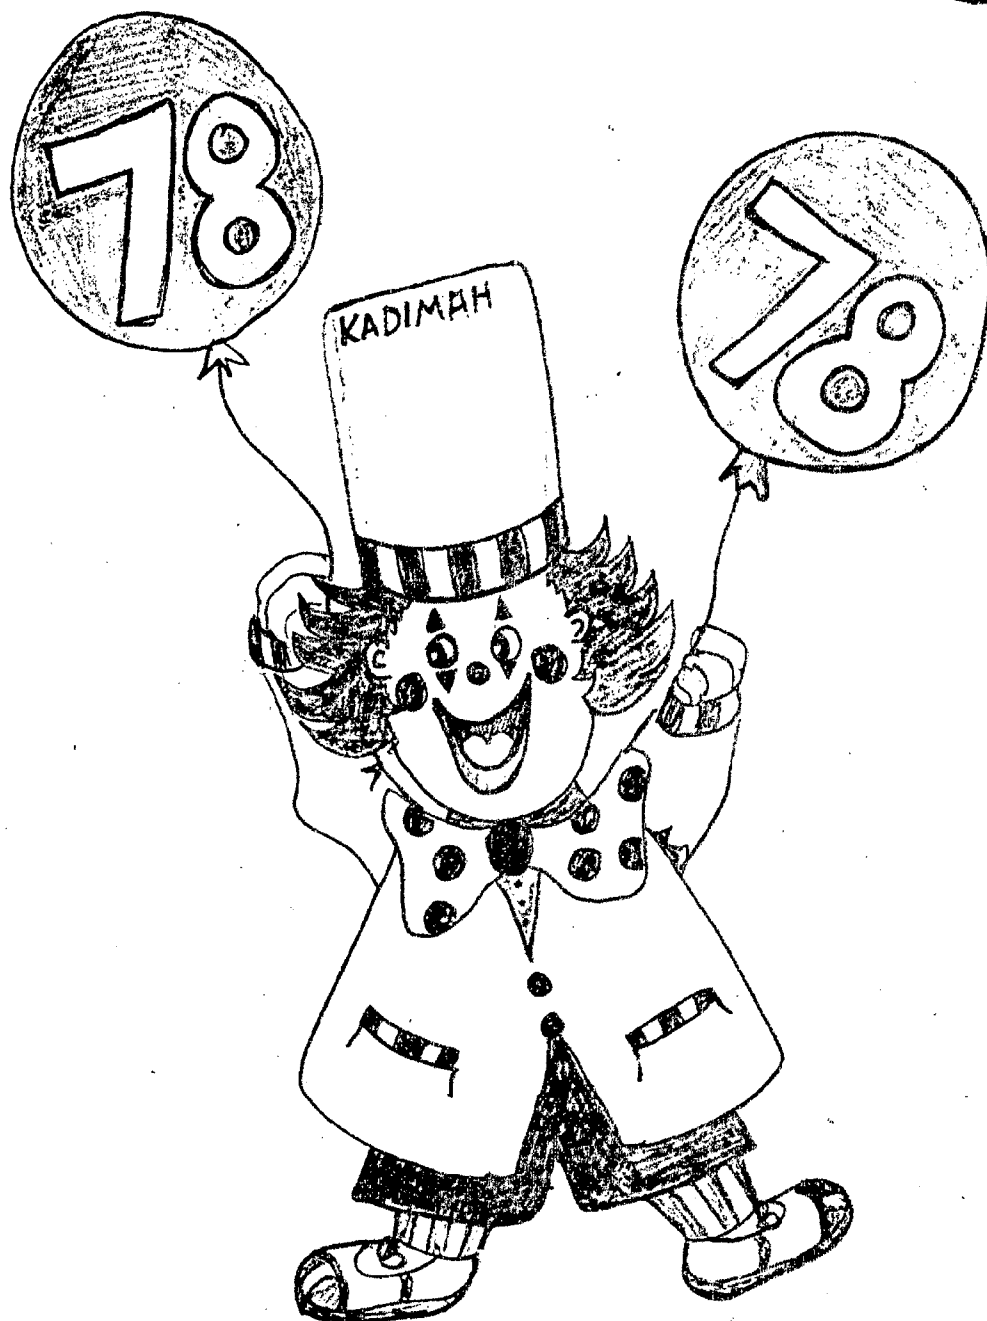

Tune: Back in the U.S.S.R.

CHEER

An Cholem we are blue, let's show them what we do,
Running, swimming, we are the best, we're the team
With lot's of zest. Yeah Blue!

BELARIE ZATZMAN

FREE TO BE YOU AND ME

It all started at the beginning of the summer, when Belarie Zatzman (head of drama and Arts & Crafts) told the camp that we would be putting on a big production for Visiting Day. It would be extra-special, because it is all about kids. It was called "Free to be You and Me". Some of us heard about it, or had the book, or saw the movie, or had the record. From what we knew, it was fabulous. Most of the girls and some of the boys were very eager to participate in this play. Only Gaborin, Goshirin and Kochot could audition.

The auditions consisted of singing ability, mime, acting, etc. etc. Almost everyone who auditioned, made the play.

A few days later, Belarie gave each of us our parts. In some scenes we would all be on stage. In others, we would be on separately. The play consists of small skits and songs about children imagining, pretending and just funny things we make fun of and imitate.

We, then, started to take to rehearsing each day after supper. It sure was a lot of work for everyone, trying to keep quiet while someone was talking, learning lines, paying attention etc.

Finally, it was two days before Visiting Day. The scenery was being painted, everyone knew their lines, the musicians knew all the songs, everyone almost knew to keep quiet. We still had a lot of practicing left to do in those two days. Belarie, our star director, was half crazy as we learned that one of our scenes that we were all in: (The Rain and the Great One.)

We had been rehearsing each day after supper. It sure was a lot of work for everyone, trying to keep quiet while someone was talking, learning lines, paying attention etc.

At last, Visitor's Day came. The lights dimmed as we stepped on stage singing Free to be You and Me. We were all dressed in different colored shorts, T-shirts, striped socks and running shoes. The scenery was terrific. Everybody was extremely nervous. But it sure was worth it. Everything ran smooth (almost) and all the parents loved it. We were all proud of ourselves.

Speaking as a participant in Free to be You and Me, I'd like to give special thanks to Belarie Zatzman for all of the outstanding work she put into making the play a success and that it was! Thanks for everything Bel, we couldn't have made it without you!

MACCABIA

Maccabia is a time for togetherness, when people get in groups (teams) and work together as a group, like pretending that the group is one individual person doing the things that have to be done. Doing work when work has to be done and work before play. And after all the work is done it is time to play. Maccabia is also a time when people think that they can't do anything, but when you try it once and find out that you have the ability to do almost anything if you just give it a chance.

Cherise Devlin

Maccabia is so much fun,
although we did not have the sun.
We all played games and saw who won,
but we would always run.
Monday starts and Friday ends,
we also have many friends.
There are three teams,
we're all like beams.
We have some cheers,
we have no fears.
And that's what Maccabia's about.

Tracey Scher

THE EXCITEMENT OF MACCABIA

The most exciting events of my camp years have been Maccabia's. The excitement is continuous throughout Maccabia. The excitement is caused by the events which go on one right after the other. Everyone takes part in the events so that this causes excitement. The excitement brings out optimism and sportsmanship from all.

The most exciting and nerve-racking part is the announcing of the winning team at the end. Maccabia is exciting.

Jonathan Boniuk

THE OPENING OF MACCABIA

This year, Maccabia started in a very unusual way. After visiting day ended we had our own little Mifkad. We had a compulsory movie that night. During the movie, Ira called out a lot of male staff for one moment. Then we all thought it was going to be Maccabia. After the movie we were all called back for a Mifkad. Ira said that there was a wild animal that was killing all kinds of animals. Not to be worried, but just to watch out. That was very scary for most of us. Then we heard a police car with its siren on. He pulled into camp and told us about the animal. Then he pulled out the three banners, announcing Maccabia. They told us our teams and captains then we all went to bed.

Andrea Garson.

RECORD BREAKING DAY

You get to break camp records like, sack racing, basketball, floor hockey, ball throwing, cookie eating, talking non-stop, standing on one foot, kissing contest and ice holding.

Cabin hopping is the most funnest event of all. It's when you go to a different cabin in the middle of the night and you are not allowed to.

Iaan Brown

BIG EVENTS AT CAMP KADIMAH '78

Israel day is when you go on a plane to Israel. When you get to Israel, you are separated into five groups and they teach things about Israel. In the night, there is a slave auction.

A camper counsellor hunt or counsellor camper hunt is like hide and seek, but you're given a punishment.

Maccabia is an event when the camp is broken into three or four teams, red, white and blue or yellow. The head staff are judges. Everyone competes in events like Bama, Shira, Sherkud, Swimming and Running.

Iaan Brown

MACCABIA

Maccabia is 5 grueling days of hard work and team participation. But, it is very enjoyable if everybody goes out to have a good time. What usually happens, but not always, the team who wins does not have as much fun as the team who comes in last. Like this year, I was on blue team and we came in last but I had a hell of a good time. There is only one major thing I don't like about Maccabia; it is always rush, rush, rush, you never have time for yourself and it causes you to become very cranky and sometimes it even causes you to get sick. So I think that instead of Maccabia being 5 days, it should be a week, but with the same number of events. Besides that though, I think Maccabia is great and really shows how people can work as a unit, not as one.

Neil Brown

ISRAEL DAY

One afternoon we had Israel Day and we pretended that we were on a plane and we had a snack and watched a movie. Then we got off the plane and we went to different stations and then in the night we had a song festival and every cabin had to sing an Israeli song and there were prizes for the winners. Everybody had a good time singing and dancing during the Festival and everybody did something. Then that was the end of Israel Day and everybody had a great time!

Susan Brinker

MACCABIA

This year Maccabia was introduced in a very original way. The teams were called out after everyone realized what was going on. Because of the fewer number of people this year, there were 3 teams instead of 4. The 3 teams all worked and tried very hard and the competition was very close for all of the five days. Then the last day came and the winner was to be chosen. The captains lit the Maccabia fire and then the judges read out the scores. The scores were all close and all teams were up on top. Then the winners were announced and a great roar of thrill and happiness rose up from the winning team, White Team, Red Team came second and Blue came third.

SWIM MEET

One day a bunch of kids and I went to Bridgewater for a swim meet. Unfortunately, we didn't win, but we came fourth. It was very hot and everyone enjoyed themselves. On the way back, we stopped off at the dairy cone and got an ice-cream cone. That was a great day.

Andrea Garson

RECORD BREAKING DAY

There is one day in Camp, which is called Record-Breaking Day. It is called that because we try and break Camp records. Here are some of the records; talking contest, won by Joey Schwartz, Barabra Friedman and Sheri Lecker. Their record was 3 1/2 hours. Bubble-gum blowing was won by Rosalee Jacobson; her record was 8 inches. Apple bobbing was won by Sandy Fischel; she bobbed an apple in a 1/4 of a second. There are lots more events that were fun.

Arlene Conter

ALL ABOUT MACCABIA

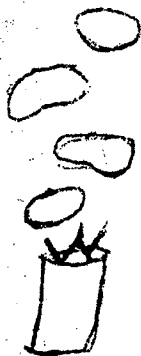

This is my best year at camp. During Maccabia I was on blue team, but we came in last. Red came in second, and white came first. I thought blue team was rigged. But white team won four events and it was fair and square.

Lyle Goldberg

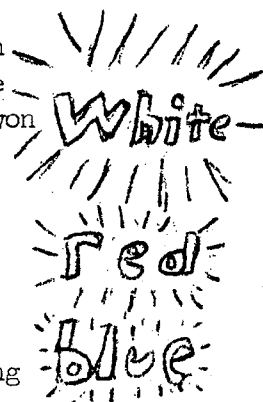

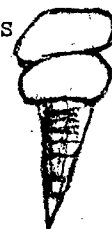

FREE TO BE YOU AND ME

Free to be You and Me was a play some people did on Visiting Day. It was a good play. It was about people telling other people what to do and who to like.

SWIM MEET

A few days before Visitor's Day about 17 kids and I went to Bridgewater for a swim meet. About six teams were there.

Our team came in fourth which was good because we had a small team, and we weren't entered in many events.

I was in two medleys and one front crawl race. In the medleys we came second both times, and I came fourth or fifth in front crawl. It was a lot of fun.

SWIM MEET

A group of Kadimah swimmers, coached by Matthew went into Bridgewater for a swim meet. We went in a taxi and it took about 30 minutes. We came fourth in the meet but we had lots of fun. Some of us got ribbons when we came back to camp also. On the way back we stopped at the Dairy Cone and had banana splits and slushes. We're going back next year too and hopefully do better!

Ben Schelew

RECORD BREAKING DAY

During Record Breaking Day there are a lot of events going on such as cookie eating contest you have to see how many cookies you can eat. Iceholding contest, you have to see how long you can hold ice. The bubble gum blowing contest is to see who can blow the biggest bubble. There are many more contests you can enter which I didn't mention. It is a lot of fun, Record Breaking Day, is only one of the special days in Camp Kadimah.

Barbara Payne

FREE TO BE YOU AND ME

This year camp put on a play. We did it on Visitor's Day. We performed very well and the parents enjoyed every bit of the play. I would like to thank Belarie especially for help putting on the play. Special thanks to Ira, Marty, Marla and Esther for helping in playing music. Ezra helps put up the stage so he should be thanked also. I hope everybody enjoyed the play.

Stephen Flam

RECORD BREAKING DAY

There are many kinds of records to break, such as ice holding, egg walking and many more. Believe me, it wasn't a bore. There's standing on one leg, there's standing on two legs, bubble-gum blowing, and there's more. It's so much fun. If you're good at it, you can say I won!

Naomi Brown

SADIE HAWKINS NIGHT

One Saturday afternoon after the baseball game, Gib, Gosh and Kochot had to meet on the pavilion. The girls and the boys were separated and the boys had two minutes to hide, then the girls would go and find a boy. Whatever boy you found is the boy you would marry. They gave you a marriage contract. At the social, the girls would ask the boys to dance, but it was the exact opposite. It was fun.

Andrea Garson

KOCHOT-MACHAR V.S. NRW GEMANY

One day in July, Jeff Cohen and Irwin Simon decided to choose a team of Kochot and Macharniks to play a team for New Germany. They picked the team and a week later, it was time for the game. We walked onto the field and saw the size of the other team, and we thought for sure we'd be creamed. But you know the saying- the bigger they are, the harder they fall, and fall they did- we won- 18-3.

Mark Zive

R.C.M.P. GAME

The morning of the game we thought we would get killed, but when they came we found out that they did not have a good pitcher. The good one had been transferred. The first inning went 3 up, 3 down, and 5-0 for us. Their first baseman was a girl! In the second inning Larry Goldman hit a homer and so did Jeff Cohen. The final score was Kadimah-23, R.C.M.P.-5. A Great Game.

Ben Schelew

RECORD BREAKING DAY

Record breaking day is when you try to break a record by doing something, like Jason Budovitch and Alan Goldman held ice for two hours and 30 minutes and broke the record and Belarie and Marty Zatzman were in the kissing contest and won. And there was more! I think Maccabia is great!

Tracey Scher

SADIE HAWKINS DAY AT
CAMP KADIMAH

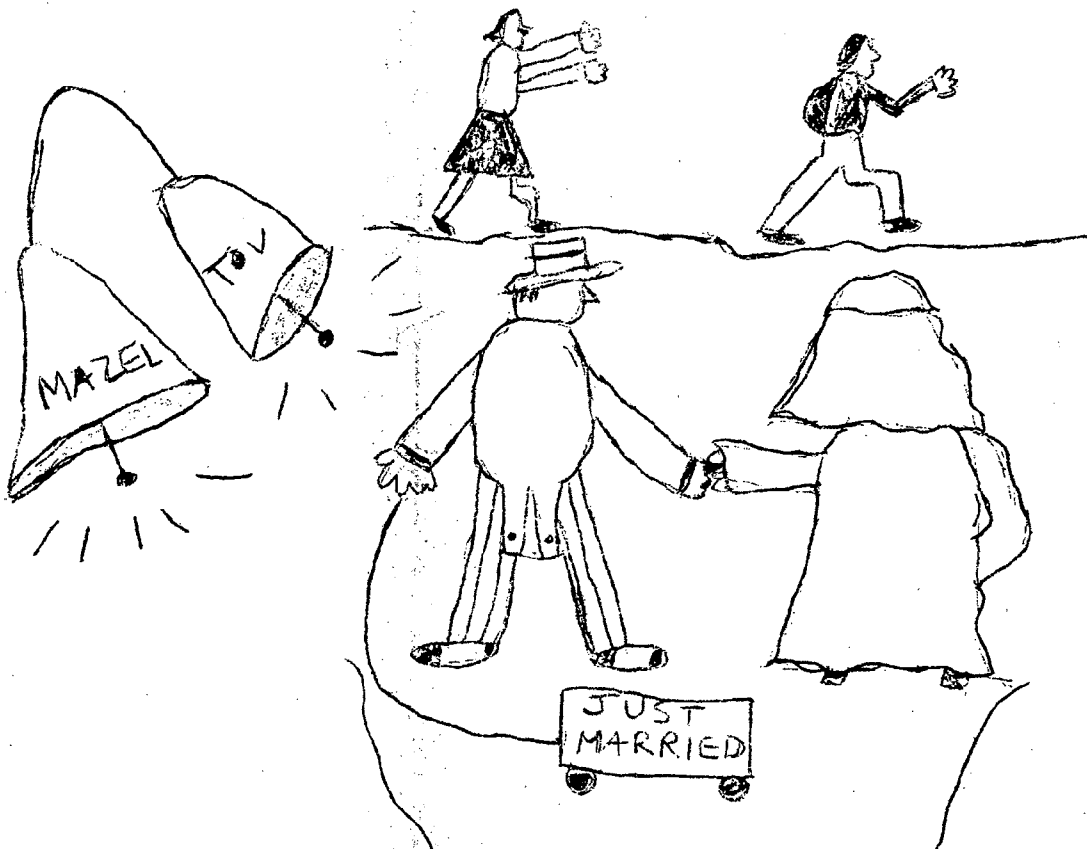

On the second last Saturday of camp it was announced at the lunch table that there would be a Sadie Hawkins social that evening. Each female camper and staff was directed to catch a male camper or staff during the time limit of about one half hour. This man hunt included the Gib, Gosh, and Kochot sections. After catching your desired loved one, you were married by one of Camp Kadimah's faithful and experienced Rabbis, being Rabbi Wolman and Rabbi Cuperfain. Each couple was given a certified marriage license that was to be presented in order to be permitted into the dance. All the wives had to pick up their hubbies and escort them to the big dance. The result of the whole event was that kids from seven and up had a chance to live a married life. Maybe this has altered some of our decisions on remaining single.

Arlene Epstein

FREE TO BE, YOU AND ME

This year on Visiting Day, we put on a play. It was called, "Free To Be, You and Me". It was a great play. We put a lot of time into it and it turned out to be a great success! My parents enjoyed it and I'm sure many others did too. We had great music and great musicians. Our director, Belarie Zatzman, did a great job and we all enjoyed working with her. Thanks to Belarie our play was a great success. Thanks Belarie!

August 9

Dear Bubby and Zaidy,

How are you? I am fine. I am having a great time at camp and have lots of friends. I like my counsellors except for when they get mad at us for making noise at 5 o'clock in the morning.

Last week went on an overnight. It was lots of fun. Specially when one of the boys put his foot in a pot of sup.

Bubby, please send me some care packages. The food isn't like yours.

The other night we raded our counset-ors and put shaving cream on their pillows and vasaleen on the toilet seat. They were really mad so they took our snack away.

Mommy and Daddy were here on Visitors Day. All the girls in my cabin put on a dance but I got scared and didn't move. Mommy said I did well but she was just saying that so I wouldn't feel bad.

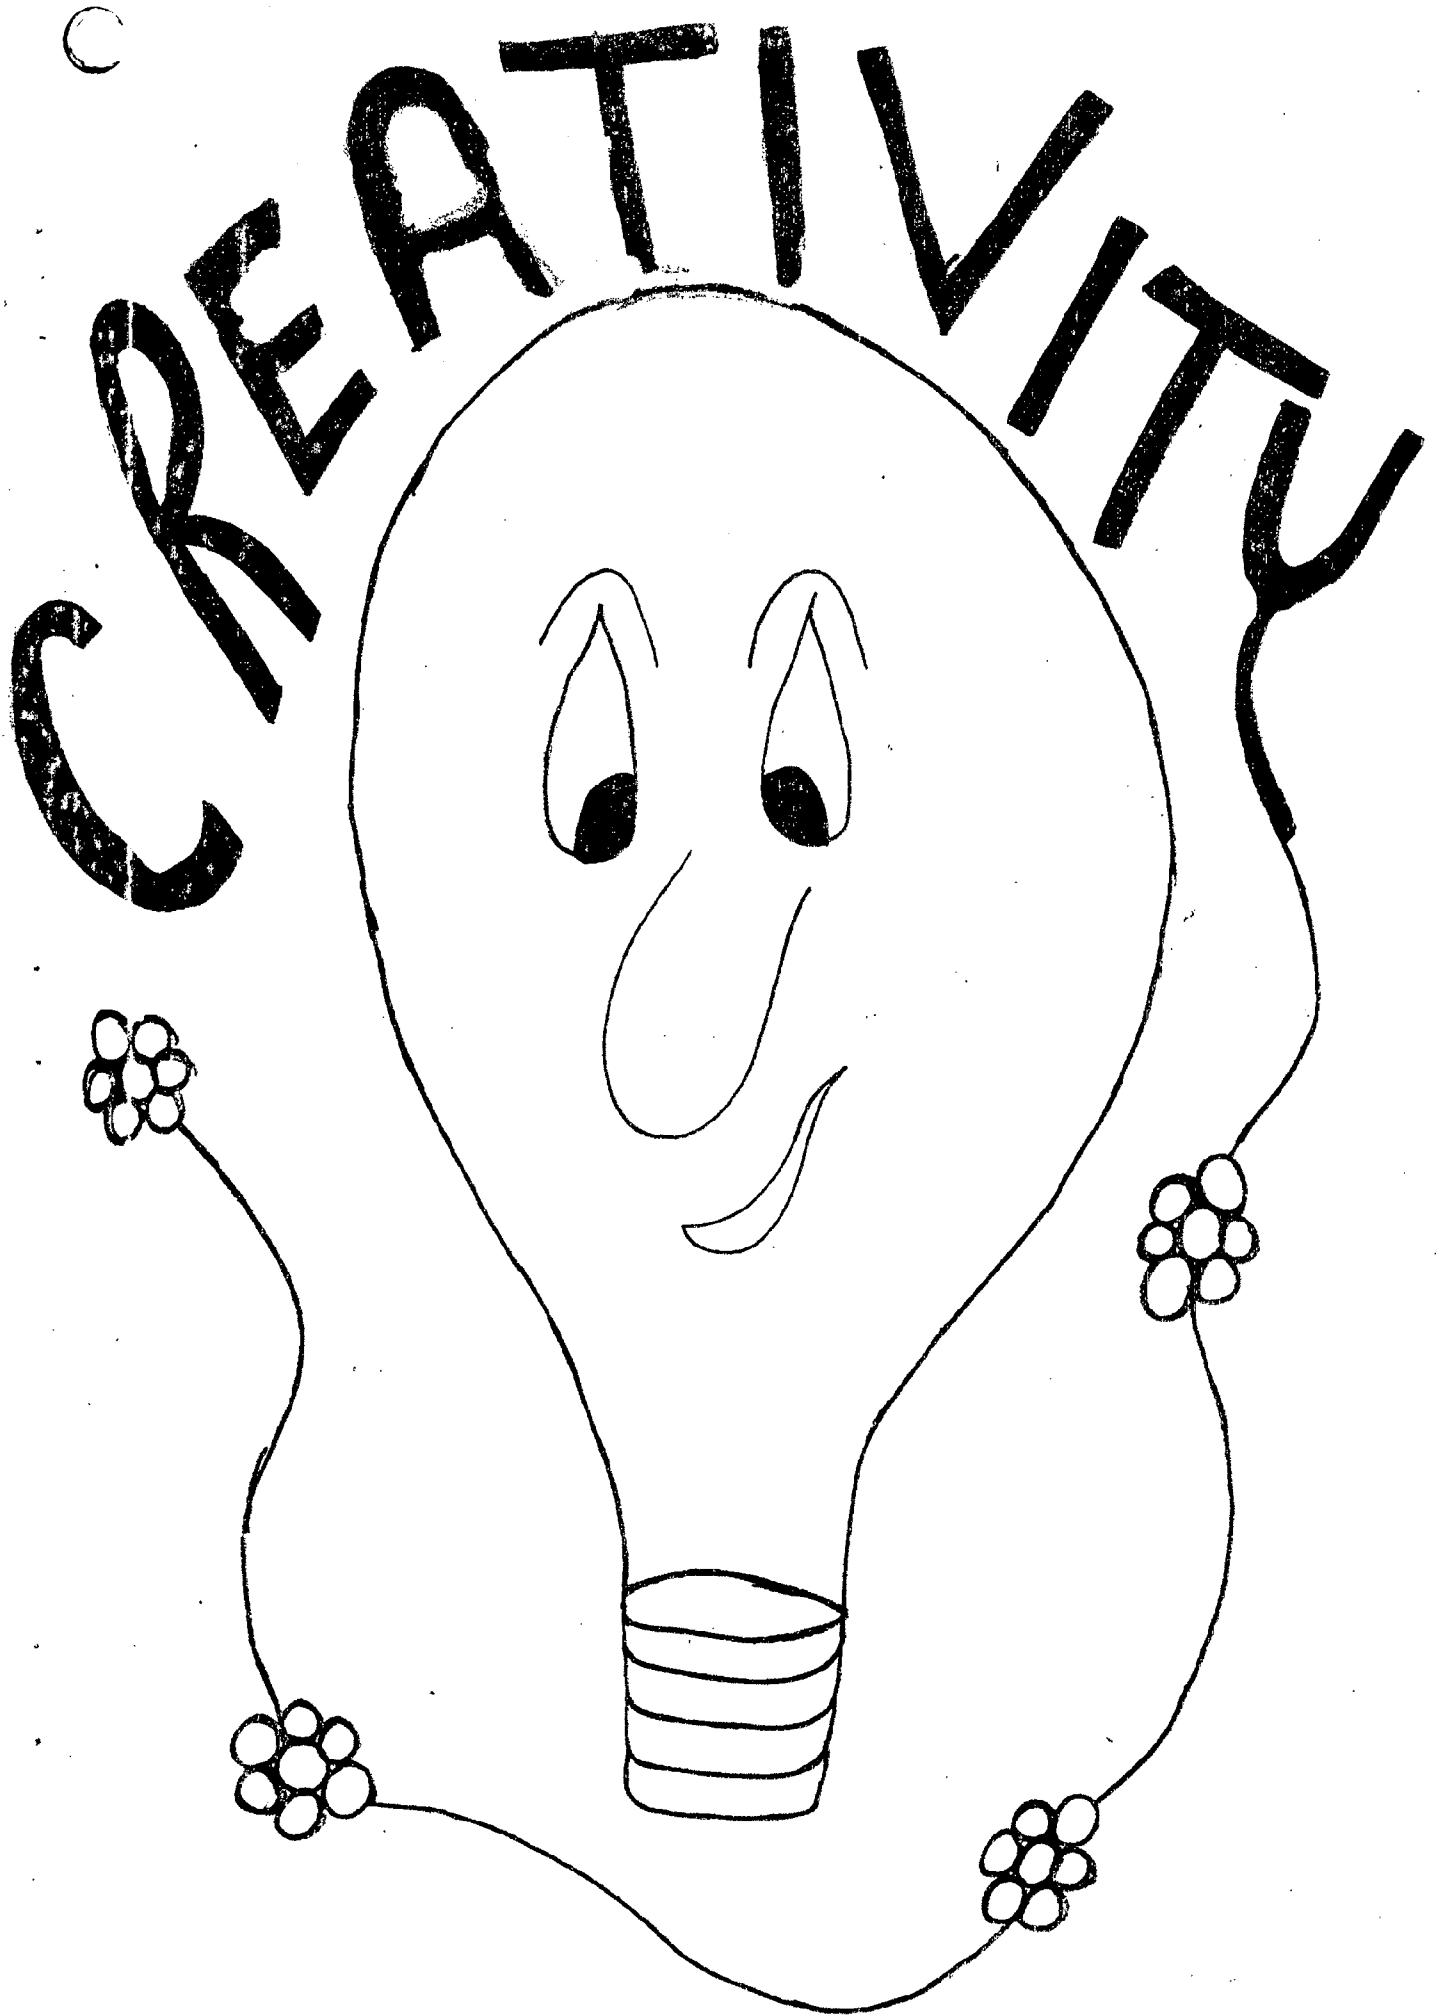

Well I am tired now so I am going to bed.

Love Karen xxoo.

P.S. Say hi to Fluffy

I miss you!

WHAT IT IS TO BE A GOOD FRIEND

I had a good friend and I found out what it is to be a good friend. Once there was a guy named Frank and he had a friend named Joe. One day they took a walk through the woods and they found an old man, unconscious. Frank said "I don't want to get involved in this, because we might get blamed for it". Joe said, "we just can't leave him here, let's try to help him". But Frank didn't want to help him. They soon noticed that there was a chain around his neck. Frank said that he did not want to help any Jew. Religion shouldn't matter Joe added. If someone gets hurt you should help him no matter what religion he is. Joe said, "go back and get help". Frank replied, "no he's a Jew". Frank decided to leave and not help Joe get home. Hours passed and Frank didn't tell anyone about Joe. Frank sat in his room feeling guilty, and meanwhile Joe sat in the woods with the old man. Finally Frank thought about what Joe had said earlier that afternoon. He started feeling really guilty, and decided to go get help. When the help arrived Joe was happy. The next day Joe said to Frank "Now I know what a good friend is". A person who helps other people when needed, is a good friend.

HOW TO BE A GOOD FRIEND

A good friend is someone,
Who likes you,
And someone you can talk to,
He helps you out,
And gives you some advice.
A friend could invite you,
to her house for milk and cookies.
And if you get in a fight,
You can reason with her nicely.
And a good friend could invite you to a party,
So it's nice to be a...GOOD FRIEND

Stacey Burnstein

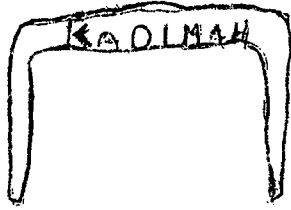

I THINK A GOOD FRIEND IS....

I think a good friend is a person who is nice to you, and you can share secrets with them and they won't repeat the secret. I think a good friend is someone that will laugh with you and not at you. I think a good friend is someone that protects you and when someone teases you, he stands up for you.

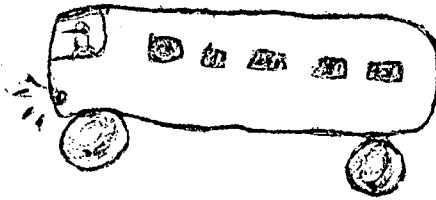

I think a good friend is someone that will tell you nicely if they agree or disagree, not scream their head off at you. I think a good friend is not somebody who acts smart or great but most of all, I think a good friend is someone that first acts like himself.

OPENING DAY

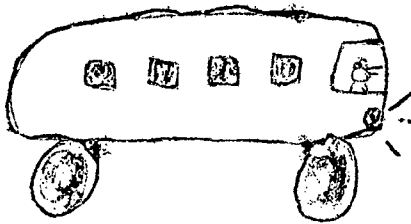

Opening day,
What can I say?
Carpers came,
From here and there,
To see their friend
From yesterday.

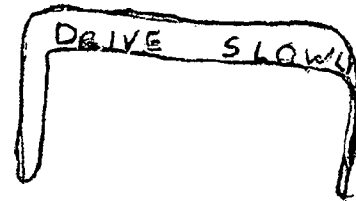

You came off the bus,
With a smile,
To see the camp,
You haven't seen for a while.

You met your friends,
And got settled in,
And before you knew it,
The day came to an end.

Bye for now,
See ya later,
If the bank
Doesn't take her.

Lewis Chernin

FRIENDS

A good friend is someone who shares things with you and gets along without fighting. A good friend would help you if you're in trouble. A good friend won't make fun of your religion and laugh at you when you fall down. A bad friend is someone who fights a lot. A bad friend is someone who is mean to you. A bad friend isn't any good.

PEOPLE WITH A DREAM

People with dreams!
Some people have sad dreams,
Others have happy dreams,
Some people have funny dreams,
Everyone has their own dreams,
But no one else has dreams like you.

FRIENDSHIP

HOLDING HANDS
WHISPERING
EXCHANGING GLANCES
TWO PEOPLE
RESPECTING; BELIEVING
THEIR FRIENDSHIP

Alone,
in the middle
No way to turn
The life and the background
Of which I yearn
Is nowhere to be found

The CROWDS grow larger
All of the time.
The yearning grows stronger
This religion of mine
Is nowhere to be found

My outlook for the future
Grows darker everyday.
But I believe, Judaism
will prevail someday
It will be FOUND

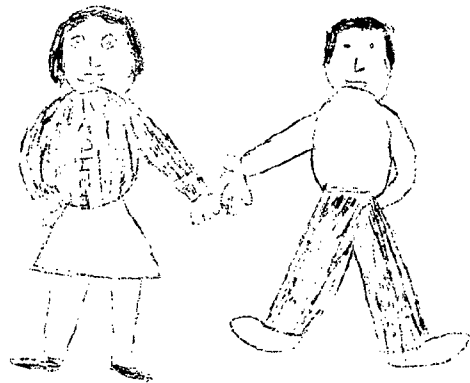

Laurel David, & Lori Silverman

A FRIEND IS...

AN ENEMY IS...

A friend is a person you like very much,
And play with everyday.
And you sometimes,
Share secrets with them
An enemy is a person,
You don't like very much.
They don't share their toys with you.
They fight with you,
Because they think you are different

It always sparkles.

Look at the sun gleam.
It shines all over the land.
It shines every day.

AM I JEWISH?

Am I Jewish?

My mother was forgotten in SS hell-fire, as her brethren on the other side of the ocean partied to the "hit parade". Tall blond men of hitlerite beauty, slaughtered her father as he laced the holy leather around his arm and temple. A bald Madone sold her body to Satan, in order that she should live.

Am I Jewish?

Outside of an unimportant Polish Village, my father hid in partizan caves, as he watched David and his parents burn a thousand deaths. In his personal glory, vengeful and frightened he strangled his hatred out on his education

Am I Jewish?

Three times a year I laugh-out forgiveness in high fashioned prayer, with a happy grin I eat under the Golden Arches on the day of my Communal Attonement. Educated and bred with "Yiddishkite", I smuggle out a piece of the forbidden piglet and place it between my teeth. And when law-polution becomes unlisted I even laugh with my shikze, never even asking why?

Am I Guilty?

Breaking away from the pat and the tride, from the whirlwind of wrong and right I love only to be loved. In solitude, in loneliness, in the wordless world, and in the words I read I am not afraid to take the road. Let Cadillac dreams fornicate the unity of God, for I am not afraid to love. Let me touch the child with my conscienceness. Let me touch their hands and love them.

Am I Jewish?

I applaud the past and live for the future. I thank God for giving us back our land of glory, we all love so dearly.

Am I Jewish? Case dismissed.

Daily

The thought of going to Israel always excited me. I couldn't wait to experience the feeling of being surrounded by only jews. Everyone who had gone there had insisted that as soon as you step off the plane you feel like you belong.

I was dying to see Jerusalem, the Western Wall, and all the other historical landmarks I had heard about but never thought I'd see.

I wanted to live on a Kibbutz, but my mother said that she wouldn't last a week so, we stayed at a hotel and visited a kibbutz.

Although I was excited I was a bit apprehensive. I was scared of the bombings and the P.L.O. attacks, even though I was pretty sure nothing like that would affect me or my family while we vacationed in Israel.

I could hardly contain myself, I was going to Israel.

WHAT IS A GOOD FRIEND?

A good friend is someone that cares and likes you and you can tell your thoughts to. And would never say that's crazy, or would laugh to make you feel bad.

A good friend is someone who would be there and tell you when your wrong, and wouldn't scream at you, but would explain it nicely.

Alana Beth Rubin

TOMORROW IS...

Tomorrow is another day which is different than today because tomorrow is the day you begin new things or continue old things. Life today isn't the same as life tomorrow, because many things you do, you have to think about all the day. Tomorrow is the day you begin all the new things you haven't even thought of before. Tomorrow is another life in the Jewish History. If the Jewish People haven't a thing to do, nor a place to live, what would the Jewish People think about that? On the other hand, how would your life be in Israel, or in other Jewish Communities? How would you solve this problem?

FUTURE IMAGE

The future stands

Alone,
with no voice
frightened by the past,
hindered by the present,
Images, are created
within our minds,
of things
to come

The Bridge of mind
forms a link
to our Inspirations

Creation, with our existence
Revelation gives us our turn
Expulsion will follow a block
over fate
Redemption is our calling
to where the Bridge must cross.

The future stands, feelings of generations,
hope, motivation, brotherhood with man...

A PEOPLE, A TREE

A people began a seed in the ground
Tradition fed its roots like water from the skies
Led by a belief, a power, a G-d
They were destined to become a nation of strength

Centuries passed by pages in a book
Yet this nation survived while others were forgotten
Hunted and killed, tortured and jeered
They faltered at times but never turned back

They grew and prospered stars in the sky
Through sweat and toil they reclaimed their land
Still they were hated, again they would fight
Wherever they lived they could not escape what they were
They still look onward clouds in a glass ball
The seed is a tree it now touches the sky
A tree never stops it grows in stature and breadth
And so the Jewish people have begun and will continue.

LIFE IN THE GHETTO

By: HEIDI BROWN

Ghetto life, what can I say?
Is it hell, well yes, in a way.
Dingy streets and unkept too,
Is there really enough food?
And are there clothes that we can wear
Can we brush our unkept hair?
The guns do roar and in the sky
There are no birds just planes that fly.
Where can I go, what should I do?
I'm always called a "dirty Jew".
Six million Jews are dead and gone
How long will this terrible war go on?

CRYPTOQUOTE

How to do it: XBEMCZXFOE
is HITYASHVUT

One letter simply stands for another. For instance, in the sample above, E is used for two T's, X for two H's, and so on. Single letters, apostrophes, the length and formation of the words are all hints. The code for the cryptoquote is not the same one used in the sample.

LAST NIGHT I HAD THE STRANGEST DREAM

1. Last night I had the strangest dream, I'd ever had before.
I dreamed the world had all agreed, to put an end to war.
I dreamed there was a mighty room and the room was filled
with men.
And the paper they were signing said they'd never fight again.
2. And when the paper was all signed and a million copies made,
They all joined hands and bowed their heads, and grateful prayers
were said.
And the people in the streets below were dancing round
and round,
With swords and guns and uniforms, all gathered on the ground.
3. Last night I had the strangest dream.....

B-A BAY

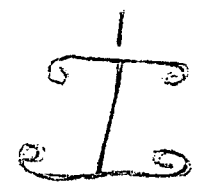

B-A Bay, B-e Be, B-i bitty bi,
B-o bo, bitty bi bo B-u bu bitty by
Bo boo boo

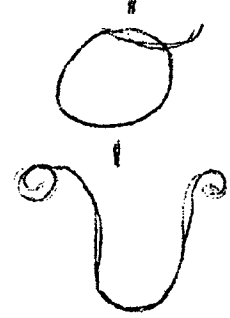

1. Golly what a kooky song, who are ya'
Singin' it to? I'm just singing it to
myself with an A-E-I-O-U

2. Come on kids and gather round
here is all you do, Pick a
Consonant and sing with an
A-E-I-O-U.

3. Just one more before we go,
how's it gonna sound,
everybody zing the Z, for the
very last go 'round.

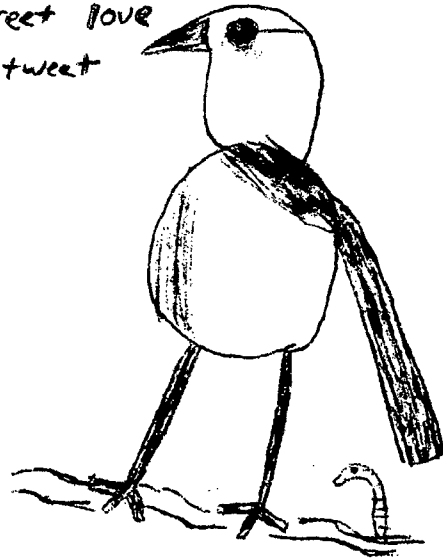

ROCKIN' ROBIN

He rocks in the tree tops all day long.
Hoppin' and a boppin' and singin' his song.
All the little birds on Jay bird street love
to hear the robin go tweet tweet tweet

Rockin' Robin, Rockin' Robin
Blow rockin' Robin 'cause we're
really gonna rock tonight.

Every little swallow every chickadee,
Every little bird in the tall oak tree.
The wise old owl the big black crow
Flap their wings singing go bird go.

MOUNTAIN DEW

Chorus: They call it that good old mountain dew, And them that
refuse it are few, I'll hush up my mug if you fill up
my jug with that good ol' mountain dew.

1. Well, my uncle Bill's got a still on the hill, where
he drains off a gallon or two, and the buzzards in
the sky get drunk they can't fly, just from smellin'
that good ol' mountain dew.

2. Well, my Uncle Mont he is sawed off and short
and measures four foot two.
Well he thinks he is a giant when you give him a pint
of that good ol' mountain dew.

3. Well, my Aunt June's got a bottle of perfume
It smells of the sweet odour - pe-u-u-u
Well it was to her surprise when she got it analysed
It was nothing but good 'ol' mountain dew.

DONNA DONNA

1. On a wagon, bound for market, there's a calf with a mournful eye.
High above him there's a swallow, winging swiftly through the sky.

Chorus: How the winds are laughing—they laugh with all their might.
Laugh and laugh the whole day through, and half the summer's
night. Donna (15)

2. Stop complaining said the farmer, who told you a calf to be. Why
don't you have wings to fly with, like the swallow so proud and free.

3. Calves are easily bound and slaughtered, never knowing the reason
why. But whoever treasures freedom, like the swallow has learned
to fly.

IF I HAD A HAMMER

1. If I had a hammer, I'd hammer in the morning,
I'd hammer in the evening, all over this land. I'd hammer
out danger, I'd hammer out warning, I'd hammer out the
love between my brothers and my sisters all over this land.
ooooooooo.....

2. If I had a bell, I'd ring it in the morning.....

3. If I had a song, I'd sing it in the morning.....

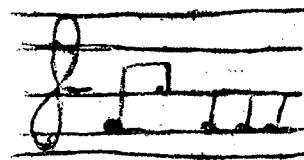

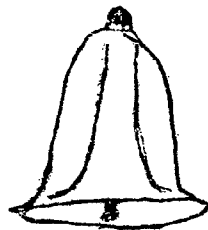

4. Now I've got a hammer, and I've got a bell,
and I've got a song to sing, all over this land.

It's the hammer of justice.

It's the bell of freedom.

It's the song about the love between my
brothers and sisters
all over this land.

ooooooooo.....

AUTOGRAPHS

"Time it was,
And what a time it was,
It was.....
A time of innocence,
A time of confidencs.

Long ago,

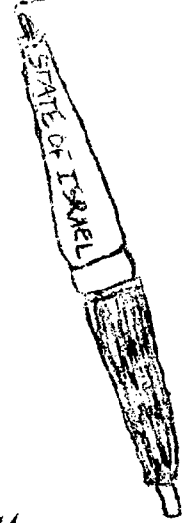

It must be.....

I have a photograph

Preserve your memories;

They're all that's left you."

- Judith + Victor

AUTOGRAPHS

LEAVING ON A JETPLANE

All my bags are packed, I'm ready to go,
Standing here outside your door
I hate to wake you up to say good-bye.

But the dawn is breaking, it's early morn,
The taxi's waiting, he's blabbing his horn.
Already I'm so lonesome I could cry

chorus: So kiss me and smile for me
Tell me that you'll wait for me
Hold me like you'll never let me go-
Cause I'm leaving on a jet plane,
Don't know when I'll be back again
Oh babe - I hate to go

There's so many times I've let you down,
So many times I've played around,
I'll tell you now, they don't mean a thing

Every place I go to, I think of you,
Every song I sing I sing to you
When I come back I'll wear your wedding ring

chorus:

Now the time has come to leave you
One more time let me kiss you
Now close your eyes and I'll be on my way
Dream about the days to come
When I have to leave you alone
About the times when we won't have to say

chorus:
